Symbols glossary

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Energy efficiency class E

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.
