|  | Smeg Active Ion system improves the quality of the air inside the cell. Thanks to the generation of negatively charged ions released inside the fridge Active Ion system neutralizes unpleasant dust. |  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.   |
|  | Energy efficiency class C   |  | LED display: to show programmes, functions and options selected and the time to the end of the cycle.   |
|  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.   |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.   |
|  | Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.   |  | Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet. The stainless steel panel gives a more premium look to the appliance. |
|  | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.  |   |   |
