Benefit (TT)

Gas hobs

Consistent heat source control and easy, immediate temperature adjustment

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

Enamelled

Long-lasting protection against rust and wear: the enamelled metal top offers strength and durability thanks to the enamel that prevents corrosion, oxidation, and signs of aging

Enamelled flat

Shock resistance ensured by durable materials and design, with dishwasher-safe surfaces and Made in Italy quality for long-lasting practicality

Smeg Contemporanea

Optimal cooking with every dish: burners combine high performance, efficiency, and practicality, ensuring precise, even results even with intensive use

Accurate power adjustment via knobs, for more precise cooking level control

Control knob position lateral

Greater safety: side knob placement makes them hard to reach for children, reducing the risk of accidental ignition

4 burners for every need: cook with precision and versatility thanks to different power levels, ideal for any pot and for managing multiple dishes simultaneously

Gas safety valves

Automatic protection against gas leaks: the thermocouple stops gas flow in the absence of flame, ensuring a safe environment even during unexpected shutdowns
