## Benefit (TT)

---

### **Gas hobs**

Consistent heat source control and easy, immediate temperature adjustment

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

### **Enamelled**

Long-lasting protection against rust and wear: the enamelled metal top offers strength and durability thanks to the enamel that prevents corrosion, oxidation, and signs of aging.

### **Enamelled flat**

Shock resistance ensured by durable materials and design, with dishwasher-safe surfaces and Made in Italy quality for long-lasting practicality.

### **Smeg Contemporanea**

Optimal cooking with every dish: burners combine high performance, efficiency, and practicality, ensuring precise, even results even with intensive use.

Accurate power adjustment via knobs, for more precise cooking level control

### **Control knob position lateral**

Greater safety: side knob placement makes them hard to reach for children, reducing the risk of accidental ignition.

4 burners for every need: cook with precision and versatility thanks to different power levels, ideal for any pot and for managing multiple dishes simultaneously.

### **Gas safety valves**

Automatic protection against gas leaks: the thermocouple stops gas flow in the absence of flame, ensuring a safe environment even during unexpected shutdowns.
