## Benefit (TT)

---

### No-Frost Cooling System

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### Door-on-door Hinge

Fixed hinges, otherwise known as door-on-door hinges, directly connects the cabinet door to the appliance door

The cabinet door will not be attached to the rest of the cabinetry. Instead, it will be completely attached to the appliance door. Therefore, the appliance door will be bearing the weight of the cabinet door. This type of fitting is often sturdier than a sliding hinge fitting, and can give you a sleeker finish.

### Reversible Door

Reversible door ensures flexible installation and space optimisation

### R600a Refrigerant Gas

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption
