

SAHP83S

EAN Code	8017709336578
Product Family	Tumble dryer
Commercial width	60cm
Commercial depth	Standard (54cm)
Installation	Free-standing
Drying system	Heat pump condenser
Load type	Frontal

Condenser container full indicator

Yes

Technical Features

Type of motor	Brushless/Inverter
Functioning	Electronic control
Humidity sensor	Yes
Time drying selection	From 10 to 160 min
Cooling down phase	Yes
Anti-iron phase	Yes
Internal light	Yes
Condenser filter	Yes
Fluff filter	Yes
Drum material	Stainless steel
Drum volume	110 l

Transparent door	Yes
Door size	40 cm
Max. door opening angle	155 °
Door hinges	Right
Reversible door	Yes
Child lock (programme set lock)	Yes
Water condenser position	At the top
Heating pump system	Yes
Condenser water drain hose	Yes
Column installation, with compatible washing-machine	With stacking kit, available as optional accessory

Performance / Energy Label

Load capacity (cotton)	8 kg
Type of dryer	Heat pump condensation
Type	

Energy efficiency class	A+++
Annual energy consumption	135 kWh
Noise level for the standard cotton programme at full load	63 dB(A) re 1 pW

Compatible Accessories

KITSPNC

Stacking kit dedicated to WN & DN

Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.		Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	This shows the amount of laundry that can be inserted into the tumble dryer in KG.		Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.
	End: Show the stage at which the program is in progress: the program has finished.		Internal lights: help to illuminate the inside of the drum.
	Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.		Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
	PRG_DR_COTTON_72dpi		Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.
	For high speed centrifuged jeans		Short ventilation for cotton and linen garments without blowing hot air
	Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.		Selection of timed cycles at low temperatures
	To dry wool clothes placed on a suitable basket		Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.
	...		Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Shows the phase of program: Shows the phase in which the program is being.

Benefit (TT)

15 programmes

Up to 15 programmes to meet every daily need

Easy Iron Option

Riduce le pieghe mantenendo i capi morbidi, anche quando non vengono rimossi subito dopo il ciclo, grazie alla funzione Easy Iron option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Hygiene Drying

Program designed to dry items that require extra hygiene, such as baby clothes, underwear and towels, ensuring high-level hygiene through the use of heat
