

SAWD844

EAN Code	8017709338404
Product Family	Washer dryer
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Programs

Controls	Electronic	
Programmes graphics	Written in EN	
No. of programmes	15	
Programmes		
AirRefresh Hygiene	Cottons 4kg	DownWear
Express 1kg	Hygiene	Quick/Quick 14'
Synthetic dry	Wool/Hand wash	 Cotton
 Cotton ECO	Cotton Dry	 Drain + Spin
 Rinse + Spin	 Shirts	 Synthetics
Washing Temperature		
Cool	20°C	30°C
40°C	60°C	90°C

Technical Features

Type of motor	Brushless/Inverter	Door opening	160°
Electronic control functioning	Yes	Automatic variable load	Yes
Programme selection knob	Yes	Antifoam system	Yes
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400	Load balancing system	Automatic
Display/led for temperature regulation	Yes	Easy to access filter	Yes
Basket	Stainless steel	Child lock (functions block)	Control block
Drum capacity	55 l	Anti-flood system	Yes
Door diameter	33 cm	Water supply	Single, cold

Performance / Energy Label

Max spin speed 1400 giri/min

Performance / Energy Label

Supplier's name or trademark	SMEG	Weighted energy consumption lavaggio	32 kWh
Rated capacity washing cycle	8 kg	Water consumption (washing cycle)	69 litre
Rated capacity complete cycle	4 kg	Airbone acoustical noise	76 dB(A) re 1 pW

Symbols glossary

	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	33 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		This shows the amount of laundry that can be inserted into the tumble dryer in KG.
	Gentle drying: program designed to get laundry ready for easy ironing.		This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.
	Inverter technology: The evolution of Smeg's dryers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.		Prewash: program designed for heavily soiled garments.
	Cotton: For soiled fabrics in cotton		Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. 1/2 capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
	To drain the water in the machine.		To drain the water into the basket + centrifuge action

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
