SAWM814S

EAN Code	8017709336561
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Programs

Controls	Electronic
Programmes graphics	Written in EN
No. of programmes	15
Programmes	

Quick/Quick 14'	DarkWash Jeans	Stain
Hygiene+	DownWear	Shirts
Cotton	Cotton ECO	Delicate 20°
Wool/Hand wash	Lingerie	Outdoor
Rinse + Spin	Drain + Spin	Synthetics

Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

Special programmes

Hygiene+	Outdoor	Quick/Quick 14'
Wool/Hand wash	Shirts	

Display

Residual time indicator	delay start	programme status indication

Display type

LED DISPLAY

Buttons/Options

End Time	Anticrease+	Spin Speed
Temperature	Prewash	Quick
Steam		

Programme progress indicator (light)	On display
End of cycle indicator (light)	On display

Technical Features

Type of motor	Brushless/Inverter	**Door diameter**	34 cm
Electronic control functioning	Yes	**Door opening**	160°
		Automatic variable load	Yes
Programme selection knob	Yes	**Antifoam system**	Yes
		Load balancing system	Automatic
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400/ Rinse hold	**Easy to access filter**	Yes
Display/led for temperature regulation	Yes	**Child lock (functions block)**	Control block
Polypropilene tank	Yes	**Anti-flood system**	Yes
Basket	Stainless steel		
Drum capacity	55 l		

Performance / Energy Label

Supplier's name or trademark	SMEG	**Spin-drying efficiency class**	B
Rated Capacity	8 kg	**Airbone acoustical noise class**	A
Energy_cons_100	32 kWh		
Water Consumption	69 litres	**Airbone acoustical noise**	72 dB(A) re 1 pW

Electrical Connection

Nominal power	2200 W	**Frequency (Hz)**	50 Hz
Current	10 A	**Power supply cable length**	140 cm
Voltage (V)	220-240 V		
		Plug	(I) Australia

Compatible Accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

End Time : this function allows you to set the desired finishing time of the wash cycle. You can plan when your laundry will be ready, aligning the end of the programme with your daily schedule while ensuring optimal washing results.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Prewash: program designed for heavily soiled garments.

Cotton: For soiled fabrics in cotton

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Delicate 20°: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.

To drain the water in the machine.

Use it to wash your delicate laundry. It washes with a gentler action without any interim spins compared to the Synthetics program. It should be used for laundry for which sensitive wash is recommended.

To drain the water into the basket + centrifuge action

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

smeg

Spin speed control: On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin.	Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
Option that allow to reduce times of the selected program.	Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
Drum has maximum capacity of 8kg of dry laundry.	Wool/Hand wash: ideal program for delicate, wool and silk garments that require particular attention in washing. It uses room temperature water and slow drum rotations to ensure maximum garment care.
Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.	

Standard dimensions to fit any home environment, with optimal capacity and advanced features

15 programmes

Up to 15 programmes to meet every daily need

LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Brushless, it offers greater energy efficiency, lower consumption and longer life, reducing wear and noise. It optimises consumption and ensures high performance while maintaining high washing efficiency.

Giant door

The size of the door offers greater convenience and versatility, facilitating the loading and unloading of laundry thanks to its wide opening, and gives a more premium and elegant look, enriching the overall design of the appliance
