SBC4104B3

Product Family	Blast chiller
Category	45cm compact
Vitality system	Yes
Power supply	Electric
Heat source	Electric
Cooling type	Fan assisted

Aesthetics

Aesthetics	Linea	**Glass Type**	Clear1
Colour	Black	**Serigraphy colour**	Grey
Finishing	Gloss	**Door**	Full glass
Design	Flat	**Handle**	Linea minimal
Material	Glass	**Handle Colour**	Black
Alternative colours available	Stainless steel, Pure Black, Neptune Grey, Nero Lucido	**Logo**	Silk screen

Program / Functions

Automatic programmes	8
No. of warming functions	6
N. cold functions	5
Automatic cleaning	
Customisable recipes	100

Cold functions

- Bottles Cooling
- Cooling
- Deep Freezing
- Pre-cooling
- Preservation

Warming functions

- Low Temperature Cooking
- Proving
- Ready to eat
- Defrosting
- Heating
- Yoghurt

Multi-step	Yes, up to 2 functions

Controls

Display / Clock	TFT graphic , colour touch screen	**Control setting**	Touch control

Options

Door open alarm	Yes	**Cooling with probe**	Yes
Minute minder	Yes	**Showroom demo option**	Yes
Timer	2	**Tones**	Polyphonic
Controls Lock / Child Safety	Yes	**History**	Yes, the last 10 functions utilised
Cooking with probe thermometer	Yes	**Touch guide**	Yes, with a long press on the display

Technical Features

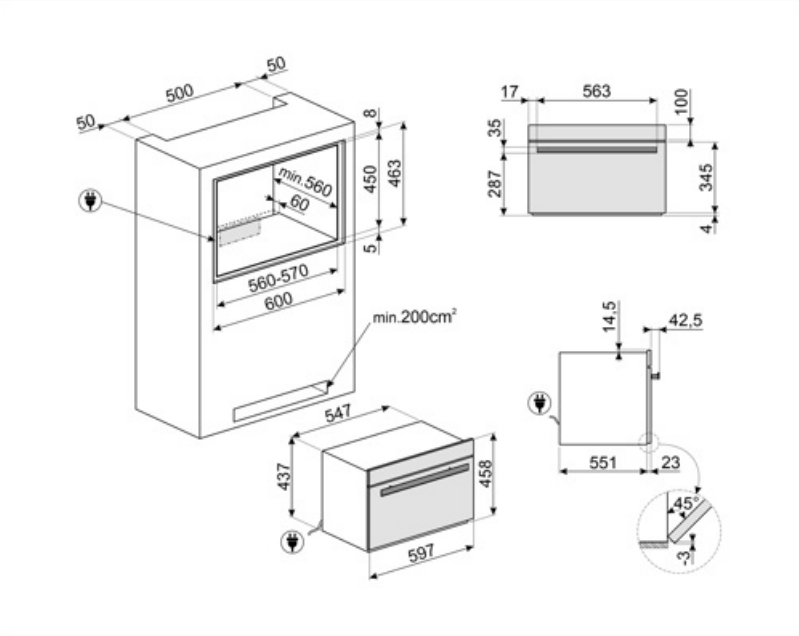

Type of compressor	Standard	**No. of lights**	1
Refrigerant gas type	R290	**Light type**	LED
Refrigerant Quantity	58 g	**Light power**	1 W
Climatic class	SN, N, ST, T	**Light when door is opened**	Yes
Temperature control	Electronic	**Upper heating element - Power**	250 W
Minimum Temperature	-28 °C	**Door opening type**	Standard opening
Maximum temperature	75 °C	**Safety Thermostat**	Yes
Cavity material	Stainless steel	**Heating suspended when door is opened**	Yes
Shelf positions	3	**Gross volume**	34 l
Shelves type	Metal racks		

Accessories Included

Bottle rack grid	Yes	**Other**	Microfiber cloth
Temperature probe	Yes		

Electrical Connection

Voltage	220-240 V	**Current**	2.5 A
Plug	(F;E) Schuko	**Frequency (Hz)**	50 Hz
Nominal power (W)	270 W	**Power supply cable length**	200 cm

Colour: Neptune Grey

Symbols glossary

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Cold storage: allows to keep the food at the desired temperature between -35°C and +75°C and serve it at its best to enhance flavours and aromas.

Bottles cooling: is possible to quickly cool wine and beverage bottles, reducing the need for storage in the refrigerator, with considerable space savings. Cooling of beverages takes place at about 1°C per minute.

Electric

Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.

The capacity indicates the amount of usable space in the oven cavity in litres.

Low temperature cooking: This function consists in cooking food at a constant temperature, lower than the traditional cooking temperature. Meat results more tender and juicy, maintaining a softness that only this cooking technique allows to obtain.

Cooling: It allows to quickly cool the food, from the temperature of 80/90°C to 3°C in less than 90 minutes, to prevent bacterial growth, prolong the average life of food and maintain unaltered the quality of food.

Pre-cooling: allows the cavity to cool to -30 °C before inserting food into the blast chiller, to ensure the best cooling and freezing results. It is recommended to run a 15-minute pre-cooling cycle.

Deep freezing of the food is a very quick process (From 0/90°C temperature to -18°C in less than 270 min) that allows to extend the average life of food (by up to 70% more) and keep the same organoleptic and nutritional characteristics of fresh food, because it avoid the formation of macro-crystals, that ruin the fibers of the food.

Automatic cleaning: a drying cycle of the cavity to be run with the door open, to eliminate any condensation formed during use.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Ready to eat: This function allows to keep food safely at the refrigerator temperature throughout the day, and heat it just before your return to make it warm, ready to be consumed.

Dough leavening/ Yogurt: this function allows you to create the perfect conditions for correct leavening, keeping the mixture at controlled temperatures for the desired time, avoiding sudden changes in humidity levels. This feature also allows the creation of genuine homemade yogurt.
