

SBC4104B3

Familie	Blast chiller
Categorie	Compact 45 cm
Vitality system	Ja
Voeding	Elektrisch
Warmtebron	Elektrisch
Type koeling	Geventileerd

Design

Esthetiek	Linea	Type glas	Clear1
Kleur	Zwart	Kleur serigrafie	Grijs
Afwerking	Glanzend	Deur	Geheel glas
Design	Plat	Handgreep	Linea minimal
Materiaal	Glas	Kleur handgreep	Zwart
Alternative colours available	Stainless steel, Pure Black, Neptune Grey, Nero Lucido	Logo	Geëtst

Program / Functions

Automatische programma's	8
Aantal verwarmingsfuncties	6
Aantal koelfuncties	5
Automatische reiniging	
Personaliseerbare recepten	100

Koude functies

Bewaren	Flessen koelen	Invriezen
Koeling	Vooraf koelen	
Opwarmfuncties		
Koken op lage temperatuur	Rijsfunctie	Gerecht verwarmen
Defrosting	Heating	Yoghurt

Multi-step

Yes, up to 2 functions

Symbols glossary

	Kinderslot: sommige modellen zijn voorzien van een apparaat om het programma / de cyclus te vergrendelen zodat het niet kan per ongeluk veranderd		Cooling: It allows to quickly cool the food, from the temperature of 80/90°C to 3°C in less than 90 minutes, to prevent bacterial growth, prolong the average life of food and maintain unaltered the quality of food.
	Cold storage: allows to keep the food at the desired temperature between -35°C and +75°C and serve it at its best to enhance flavours and aromas.		Pre-cooling: allows the cavity to cool to -30 °C before inserting food into the blast chiller, to ensure the best cooling and freezing results. It is recommended to run a 15-minute pre-cooling cycle.
	Bottles cooling: is possible to quickly cool wine and beverage bottles, reducing the need for storage in the refrigerator, with considerable space savings. Cooling of beverages takes place at about 1°C per minute.		Deep freezing of the food is a very quick process (From 0/90°C temperature to -18°C in less than 270 min) that allows to extend the average life of food (by up to 70% more) and keep the same organoleptic and nutritional characteristics of fresh food, because it avoid the formation of macro-crystals, that ruin the fibers of the food.
	Electric		Automatic cleaning: a drying cycle of the cavity to be run with the door open, to eliminate any condensation formed during use.
	Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.		Touch control: dankzij de gebruiksvriendelijke Touch control kan het apparaat met één druk op de knop worden geprogrammeerd.
	The capacity indicates the amount of usable space in the oven cavity in litres.		Ready to eat: This function allows to keep food safely at the refrigerator temperature throughout the day, and heat it just before your return to make it warm, ready to be consumed.
	Low temperature cooking: This function consists in cooking food at a constant temperature, lower than the traditional cooking temperature. Meat results more tender and juicy, maintaining a softness that only this cooking technique allows to obtain.		Dough leavening/ Yogurt: this function allows you to create the perfect conditions for correct leavening, keeping the mixture at controlled temperatures for the desired time, avoiding sudden changes in humidity levels. This feature also allows the creation of genuine homemade yogurt.

Benefit (TT)

TFT touch display

Full touch colour display for an easy and intuitive user interface

With its intuitive, full-colour interface, it offers an immediate and simple user experience, allowing programmes and functions to be selected quickly. Touch controls provide smooth and precise navigation, while the clear display of temperatures, times and settings ensures optimal control during each step of the process.

Removable temperature probe

High precision and exceptional results with the removable temperature probe, enabling perfect and controlled cooking

Insert the temperature probe to monitor the food's internal temperature for perfect results. The slow cooking function enhances flavors and tenderness while preserving essential nutrients.

Touch Guide

Enhanced ease of use, functionality and assistance thanks to the touch guide for a better display navigation

The Touch Guide provides pop-up explanations and tips when you press an icon.

Vitality System

The combined use of Smeg blast chiller, Galileo oven and vacuum drawer preserves organoleptic and nutritional qualities of food

Oven-interchangeable multifunctional grids

Maximum flexibility thanks to the oven-interchangeable grids, supporting containers and food or, when rotated, serving as a bottle holder
