Symbols glossary

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Energy efficiency class G

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Benefit (TT)

External handle

Handle with sober and elegant aesthetics, for easy door opening

UV-protected door glass

The UV-protected door glass protects the bottles from the passage of light into the wine cooler for impeccable storage

Display Shelf

The repositionable display shelf ensures that the best bottles are always in view, with the possibility of displaying magnum bottles as well

LED lights

LED lights ensure perfect multi-level visibility inside the wine cooler

Activated charcoal air filter

The activated charcoal air filter ensures excellent quality of the air and is easy to maintain

Low-vibration compressor

The low-vibration compressor avoids exposing the bottles to prolonged vibrations, which could compromise the quality of the wine
