## Symbols glossary

---

	Ultra-low profile: Installation of product with flat edge - height of 1 mm.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	Touch control		Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
	Glass ceramic: The base of the hob is made glass ceramic. Heating is performed by the heating elements Hi-Light.		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
