Symbols glossary

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

0	
0	

Time elapsed: shows how long the cooking zone has been in use.

DIGI	Touch control
())©	Glass ceramic: The base of the hob is made glass ceramic. Heating is performed by the heating elements Hi-Light.
⊦ -{	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

()

Timer: All ceramic hobs have a timer which
automatically ends cooking after a preset time.

Benefit (TT)

Ceramic hobs

Shorter cooking times and constant temperature control thanks to the ceramic cooktop, ensuring high performance

Glass

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space.

Ceramic

Stability and design even up to 700°C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use.

Immediate access to functions via touch display, for simple and intuitive control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Nine power levels and Boost function for optimal cooking performance
