Symbols glossary

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Ultra-low profile: Installation of product with flat edge - height of 1 mm.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.

Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Glass ceramic: The base of the hob is made glass ceramic. Heating is performed by the heating elements Hi-Light.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

Compact Slider intuitive and easy to use
