## Benefit (TT)

---

### Gas hobs

Consistent heat source control and easy, immediate temperature adjustment

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

### Inox

Maximum resistance even at high temperatures: the stainless steel surface ensures durability and deformation resistance, withstanding thermal shocks without damage

### Cast iron

Solid and sturdy, easy to clean and maintain every day, thanks to the cast-iron pan supports—an emblem of long-lasting efficiency and durability.

Accurate power adjustment via knobs, for more precise cooking level control

### Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

4 burners for every need: cook with precision and versatility thanks to different power levels, ideal for any pot and for managing multiple dishes simultaneously.

### Gas safety valves

Automatic protection against gas leaks: the thermocouple stops gas flow in the absence of flame, ensuring a safe environment even during unexpected shutdowns.
