## Symbols glossary

	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	CUT_OUT_STANDAR_72dpi		ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.
	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
