## Electrical Connection

|                |             |                                  |        |
|----------------|-------------|----------------------------------|--------|
| <b>Voltage</b> | 220-240 V   | <b>Nominal power</b>             | 3300 W |
| <b>Plug</b>    | Not present | <b>Frequency (Hz)</b>            | 50 Hz  |
| <b>Current</b> | 15 A        | <b>Power supply cable length</b> | 115 cm |

---

## Compatible Accessories

---

### **BN620-1**

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

### **BN640**

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

### **PR3845X**

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

### **STONE2**

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

## Symbols glossary

|                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                     |                                                                                                                                                                                                                               |

|    | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |    | Microwave energy shortens cooking times dramatically and produces energy savings.                                                                                                                                             |
|    | Air cooling system: to ensure a safe surface temperatures.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |    | Defrost by time: Manual defrost function. At the end of the set duration, the function stops.                                                                                                                                 |
|    | Defrost by weight: Automatic defrost function. You choose the type of food to defrost from the available categories (MEAT - FISH - BREAD - DESSERTS). After entering the weight of the food, the oven automatically defines the time required for proper defrosting.                                                                                                                                                                                                                                                                                                                                                                                                                |    | Triple glazed doors: Number of glazed doors.                                                                                                                                                                                  |
|    | Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking. The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.                                                                                                                                                                                                                                                                                                                                                                                                           |    | Electric                                                                                                                                                                                                                      |
|   | Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking. |   | Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes. |
|  | Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  | Illuminated controls: are a safety device to alert the user that the appliance is on as well as being a stunning design feature.                                                                                              |
|  | Side lights: Two opposing side lights increase visibility inside the oven.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  | ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.                                                                                                                                 |
|  | The oven cavity has 3 different cooking levels.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  | Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.                                                                              |
|  | Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  | Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.                                                                                   |

The capacity indicates the amount of usable space in the oven cavity in litres.
