SF4400MCX1

Category	45 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Combi Microwave
Cleaning system	Ever Clean enamel
EAN code	8017709315719

Aesthetics

Aesthetic	Selezione	**Serigraphy colour**	Black
Colour	Stainless Steel	**Serigraphy type**	Symbols
Finishing	Fingerproof	**Door**	With panel
Design	Flat	**Handle**	Nuova Selezione
Material	Stainless steel	**Handle Colour**	Steel effect
Type of steel	Brushed	**Logo**	Embossed
Glass Type	Eclipse		

Controls

Display name	DigiScreen	**Control setting**	Touch bottons
Display technology	LED		

Programs / Functions main oven

No. of cooking functions	8
Automatic programmes	13

Traditional cooking functions

Circulaire

Large grill

Fan grill (large)

Circulaire + bottom

Microwave functions

 Microwave

 Circulaire

 Microwave + grill

Microwavews + Circulaire + bottom

Options

Time-setting options	Automatic end cooking
Minute minder	Yes
Timer	1
Controls Lock / Child Safety	Yes
Rapid pre-heating	Yes

Technical Features

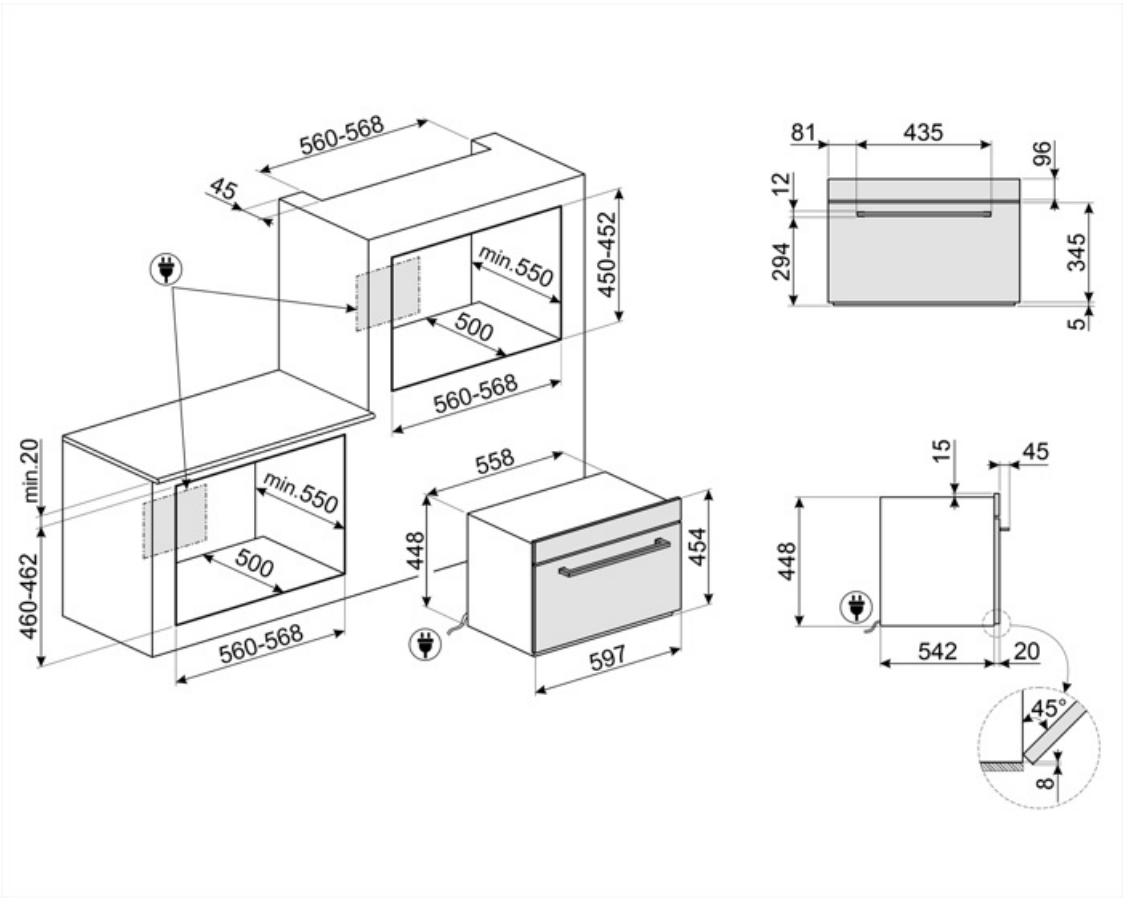

Capacity (Lt)	44 l
Minimum Temperature	50 °C
Maximum temperature	230 °C
No. of shelves	2
No. of lights	1
Light type	LED
Light Power	1,5 W
Light when door is opened	Yes
Turntable	Yes
Turntable dimension	36 cm
Grill element - power	1750 W
Circular heating element - Power	1700 W
Heating suspended when door is opened	Yes
Door opening type	Standard opening
Door	Temperate door
Total no. of door glasses	3
Microwave stops when door is opened	Yes
Cooling system	Tangential
Usable cavity space dimensions (HxWxD)	250x420x420 mm
Temperature control	Electro-mechanical
Cavity material	Stainless steel
Microwave screen protection	Yes

Performance / Energy Label

Net volume of the cavity	44 l
Microwave effective power	900 W

Electrical Connection

Voltage	230 V
Plug	Not present
Current	15 A
Nominal power	3350 W
Frequency (Hz)	50 Hz
Power supply cable length	150 cm

Symbols glossary

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Air cooling system: to ensure a safe surface temperatures.

Electric

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.

Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.

Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities,while providing maximum flexibility of household appliances.

Triple glazed doors: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.

Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.

The oven cavity has 2 different cooking levels.

The capacity indicates the amount of usable space in the oven cavity in litres.

4.3 inch display with LED technology, usability with knobs + 3 touch keys
