

# SF4604PMCNR

Category	45cm Compact Ovens
Product Family	Oven
Power supply	Electric
Heat source	Electric
Cooking method	Combi Microwave
Cleaning system	Vapor Clean
EAN code	8017709223625

## Aesthetics

Aesthetics	Dolce Stil Novo	Glass Type	Eclipse
Colour	Black	Door	Full glass
Finishing	Gloss	Handle	Dolce Stil Novo
Design	Flat	Handle Colour	Black
Component finish	Copper	Logo	Applied
Material	Glass		

## Controls

			
Display technology	TFT	No. of display languages	11
Control setting	Touch control	Display languages	Italiano, English (UK), Français (FR), Nederlands, Español (ES), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, Polski

## Programs / Functions

No. of cooking functions	13
Automatic programmes	50
Customisable recipes	10

### Traditional cooking functions

Static

Fan assisted

Circulaire

Turbo (circulaire + bottom + upper + fan)

ECO

Large grill

Fan grill (large)

Circulaire + grill

Base

Fan assisted base

### Microwave functions

Microwave

Microwave + bottom + top + fan

Microwave + circulaire + fan

Microwave + grill

Warming and re-generation

### Other functions

Defrost by time

Defrost by weight

Proving

Sabbath

### Cleaning functions

Vapor Clean

## Options

#### Time-setting options

Delay start and automatic end cooking

#### Smart cooking

Yes

#### Minute minder

Yes

#### Showroom demo option

Yes

#### Controls Lock / Child Safety

Yes

#### Rapid pre-heating

Yes

#### Other options

Keep warm, Eco light, Quick start

## Technical Features

<b>Capacity (Lt)</b>	40 l	<b>Heating suspended when door is opened</b>	Yes
<b>Minimum Temperature</b>	30 °C	<b>Door</b>	Temperate door
<b>Maximum temperature</b>	250 °C	<b>Total no. of door glasses</b>	3
<b>Shelf positions</b>	3	<b>Microwave stops when door is opened</b>	Yes
<b>No. of lights</b>	2	<b>Soft Close hinges</b>	Yes
<b>Light type</b>	Halogen	<b>Cooling system</b>	Tangential
<b>Light power</b>	40 W	<b>Cooling duct</b>	Single
<b>Light when door is opened</b>	Yes	<b>Usable cavity space dimensions (HxWxD)</b>	212x462x407 mm
<b>Lower heating element power</b>	1000 W	<b>Temperature control</b>	Electronic
<b>Grill element - power</b>	2000 W	<b>Cavity material</b>	Easy clean enamel
<b>Circular heating element - Power</b>	1400 W	<b>Microwave screen protection</b>	Yes

## Performance / Energy Label

<b>Net volume of the cavity</b>	40 litres	<b>Microwave effective power</b>	1000 W
<b>Number of cavities</b>	1		

## Accessories Included

<b>Chrome shelf with back and side stop</b>	1	<b>Glass tray</b>	1
<b>Grill mesh</b>	1	<b>Telescopic Guide rails, partial Extraction</b>	1

## Electrical Connection

<b>Voltage</b>	220-240 V	<b>Nominal power (W)</b>	3100 W
<b>Plug</b>	No	<b>Frequency (Hz)</b>	50 Hz
<b>Current</b>	14 A	<b>Power supply cable length</b>	115 cm

## Compatible Accessories

### BN620-1

Enamelled tray, 20mm deep

### GTP

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

### PALPZ

Pizza shovel with fold away handle  
width: 315mm length : 325mm

### PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

### BN640

Enamelled tray, 40mm deep

### GTT

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

### PR3845N

Black spacer cover for furniture when more ovens are installed in column. Suitable for 45cm Dolce Stil Novo compact ovens.

### STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

## Symbols glossary

 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities, while providing maximum flexibility of household appliances.</p>
 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>Defrost by time: with this function the time of thawing of foods are determined automatically.</p>
 <p>Defrost by weight: With this function the defrosting time is determined</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.</p>	 <p>Electric</p>
 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>	 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>
 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>	 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>	 <p>Circulaire + grill: Circulaire with upper element or grill: Similar to fan with upper element with the added cooking speed of circulaire, ideal for dishes with a crispy topping. When used with the grill the food will brown more quickly.</p>
 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  <p><b>Grill element:</b> Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>                                                                                                                                                                            |  <p><b>Fan with grill element:</b> The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p> |
|  <p><b>Microwave:</b> Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.</p> |  <p><b>Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.</b></p>                                                                                                                                                                                                                                                                                                                                                                                         |
|  <p><b>Microwave + grill element:</b> The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.</p>                                                                                                                                                                              |  <p><b>Fan combined with traditional cooking,</b> where heat is generated from above and below, provides uniform heat. Adding the microwave function allows the same cooking results in less time.</p>                                                                                                                                                                                                                                                                                                        |
|  <p><b>This function can reheat precooked dishes,</b> without becoming dry or hard.</p>                                                                                                                                                                                                                                                                                                               |  <p><b>Circulaire with upper and lower elements:</b> The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>                                                                                                                                               |
|  <p><b>Compact appliances with a height of 45 cm -</b> perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.</p>                                                                                                                                                                                                  |  <p><b>Keep warm:</b> This function allows you to keep precooked foods warm.</p>                                                                                                                                                                                                                                                                                                                                                                                                                            |
|  <p><b>Side lights:</b> Two opposing side lights increase visibility inside the oven.</p>                                                                                                                                                                                                                                                                                                             |  <p><b>ECO-logic:</b> option allows you to restrict the power limit of the appliance real energy saving.</p>                                                                                                                                                                                                                                                                                                                                                                                                |
|  <p><b>Air at 40°C</b> provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>                                                                                                                                                                                                                                 |  <p><b>Rapid preheat:</b> The rapid preheat function can be used to reach the selected temperature in just a few minutes.</p>                                                                                                                                                                                                                                                                                                                                                                               |
|  <p><b>Sabbath:</b> This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.</p>                                                                                                                                                                                                                                                                             |  <p><b>The oven cavity has 3 different cooking levels.</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|  <p><b>Smart Cooking System:</b> for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.</p>                                                                                                                                                                                        |  <p><b>Soft close:</b> all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>                                                                                                                                                                                                                                                                                                                                             |

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
