

SF6100VB3

Category	60cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Fan assisted
EAN code	8017709327965

Aesthetics

Aesthetic	Linea	Serigraphy type	Symbols
Colour	Black	Door	Full glass
Finishing	Glossy	Handle	Linea minimal
Design	Flat	Handle Colour	Black
Material	Glass	Logo	Silk screen
Glass Type	Clear	Control knobs	Linea
Serigraphy colour	Grey	Controls colour	Matt black

Controls

Display name	DigiScreen	Control setting	Knobs & touch buttons
Display technology	LED	No. of controls	2

Programs / Functions

No. of cooking functions	6
Traditional cooking functions	

 Static	 Fan assisted	 Eco
 Large grill	 Fan grill (large)	 Fan assisted base

Options

Time-setting options	Delay start and automatic end cooking	Timer	1
Minute minder	Yes	Rapid pre-heating	Yes

Technical Features

Minimum Temperature	50 °C	Door opening type	Standard opening
Maximum temperature	250 °C	Door	Temperate door
No. of shelves	5	Removable door	Yes
N. of fans	1	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	Total no. of door glasses	3
User-replaceable light	Yes	Chimney	Fixed
Light Power	40 W	Cooling system	Tangential
Light when door is opened	Yes	Cooling duct	Single
Lower heating element power	1200 W	Speed Reduction Cooling System	Yes
Upper heating element - Power	1000 W	Usable cavity space dimensions (HxWxD)	360x460x425 mm
Grill element - power	1700 W	Temperature control	Electronic
Large grill - Power	2700 W	Cavity material	Ever clean Enamel
Heating suspended when door is opened	Yes		

Performance / Energy Label

Energy efficiency class	A	Energy consumption in forced air convection	2.88 MJ
Net volume of the cavity	70 l	Energy consumption per cycle in fan-forced convection	0.80 KWh
Energy consumption per cycle in conventional mode	1.15 KWh	Number of cavities	1
Energy consumption in conventional mode	4.14 MJ	Energy efficiency index	95,2 %

Accessories Included

Rack with back and side stop	1	Enamelled deep tray (40mm)	1
-------------------------------------	---	-----------------------------------	---

Electrical Connection

Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	13 A		

Nominal power

3000 W

Power supply cable
length

150 cm

Not included accessories

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

BN620-1

Enamelled tray suitable for 45cm and 60cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary (TT)

	Air cooling system: to ensure a safe surface temperatures.		4.3 inch display with LED technology, usability with knobs + 3 touch keys
	A: Product drying performance, measured from A+++ to D / G depending on the product family		Triple glazed doors: Number of glazed doors.
	Electric		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment
	Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.		Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
	Side lights: Two opposing side lights increase visibility inside the oven.		Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.

The oven cavity has 5 different cooking levels.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.
