## Technical Features

|                               |         |
|-------------------------------|---------|
| Capacity (Lt)                 | 70 l    |
| Cavity                        | Sares   |
| Minimum Temperature           | 60 °C   |
| Maximum temperature           | 250 °C  |
| No. of shelves                | 5       |
| N. of fans                    | 1       |
| No. of lights                 | 1       |
| Light type                    | Halogen |
| User-replaceable light        | Yes     |
| Light Power                   | 40 W    |
| Light when door is opened     | Yes     |
| Lower heating element power   | 1200 W  |
| Upper heating element - Power | 1000 W  |
| Grill element - power         | 1700 W  |
| Large grill - Power           | 2700 W  |

|  |                    |
|--|--------------------|
| Circular heating element - Power       | 2000 W             |
| Heating suspended when door is opened  | Yes                |
| Door opening type                      | Standard opening   |
| Door                                   | Temperate door     |
| Removable door                         | Yes                |
| Full glass inner door                  | Yes                |
| Removable inner door                   | Yes                |
| Total no. of door glasses              | 3                  |
| Chimney                                | Fixed              |
| Cooling system                         | Tangential         |
| Cooling duct                           | Single             |
| Speed Reduction Cooling System         | Yes                |
| Usable cavity space dimensions (HxWxD) | 360x460x425 mm     |
| Temperature control                    | Electro-mechanical |
| Cavity material                        | Ever clean Enamel  |

## Performance / Energy Label

|   |          |
|---|----------|
| Energy efficiency class                           | A        |
| Net volume of the cavity                          | 70 l     |
| Energy consumption per cycle in conventional mode | 1,15 kWh |
| Energy consumption in conventional mode           | 4,14 MJ  |

|   |          |
|---|----------|
| Energy consumption in forced air convection           | 2,88 MJ  |
| Energy consumption per cycle in fan-forced convection | 0,80 kWh |
| Number of cavities                                    | 1        |
| Energy efficiency index                               | 95,2 %   |

## Accessories included

Rack with back stop 1

Enamelled deep tray (40mm) 1

## Electrical Connection

Voltage 220-240 V  
 Plug (F;E) Schuko  
 Current 13 A

Nominal power 3000 W  
 Frequency (Hz) 50/60 Hz  
 Power supply cable length 150 cm

## Compatible Accessories

### AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

### GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

### PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

### BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

### BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

### GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

### STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

## Symbols glossary

|  |  |
|--|--|
|  Energy efficiency class A   |  Air cooling system: to ensure a safe surface temperatures.   |
|  Triple glazed doors: Number of glazed doors.  |  Electric   |
|  Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking. |  Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.  |
|  Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.   |  Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.   |
|  Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.  |  ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment. |
|  Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.   |  Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.  |
|  Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.  |  All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.   |
|  The inner door glass: can be removed with a few quick movements for cleaning.   |  Side lights: Two opposing side lights increase visibility inside the oven.   |

- 
-  Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted
  -  The oven cavity has 5 different cooking levels.
  -  The capacity indicates the amount of usable space in the oven cavity in litres.
  -  4.3 inch display with LED technology, usability with knobs + 3 touch keys
  -  Dedicated cooking function for the rectangular refractory stone PPR2 Dimensions Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits
  -  Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.
  -  Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.
  -  The capacity indicates the amount of usable space in the oven cavity in litres.
  -  Dedicated cooking function for the Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.
