

SF6385XSA

Category	60cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Vapor Clean
EAN code	8017709206734

Aesthetics

Aesthetic	Classica	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Inox
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Controls

Control setting	Knobs	No. of controls	3
-----------------	-------	-----------------	---

Programs / Functions

No. of cooking functions	8
Traditional cooking functions	

Static	Fan assisted	Circulaire
Turbo	Eco	Large grill
Fan grill (large)	Base	

Other functions

Defrost

Cleaning functions

Vapor Clean

Options

Time-setting options	Automatic end cooking	Minute minder	Yes
----------------------	-----------------------	---------------	-----

Technical Features

Minimum Temperature	50 °C	Heating suspended when door is opened	Yes
Maximum temperature	250 °C	Door	Temperate door
No. of shelves	5	Removable door	Yes
N. of fans	1	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	Total no. of door glasses	3
Light Power	40 W	Cooling system	Tangential
Light when door is opened	Yes	Cooling duct	Single
Lower heating element power	1200 W	Speed Reduction	Yes
Upper heating element - Power	1000 W	Cooling System	
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	360x460x425 mm
Large grill - Power	2700 W	Temperature control	Electro-mechanical
Circular heating element - Power	2000 W	Cavity material	Ever clean Enamel

Performance / Energy Label

Energy efficiency class	A	Energy consumption in forced air convection	2.88 MJ
Net volume of the cavity	70 l	Energy consumption per cycle in fan-forced convection	0.80 kWh
Energy consumption per cycle in conventional mode	1.15 kWh	Number of cavities	1
Energy consumption in conventional mode	4.14 MJ	Energy efficiency index	95,2 %

Accessories Included

Rack with back stop	1	Enamelled deep tray (40mm)	1
---------------------	---	----------------------------	---

Electrical Connection

Voltage 220-240 V
Current 13 A
Nominal power 3000 W

Frequency (Hz) 50/60 Hz
Power supply cable length 150 cm

Not included accessories

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

BN620-1

Enamelled tray suitable for 45cm and 60cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary (TT)

	A: Product drying performance, measured from A+++ to D / G depending on the product family		Air cooling system: to ensure a safe surface temperatures.
	With the switch on this symbol, no heating is possible even if the thermostat is turned.		Triple glazed doors: Number of glazed doors.
	Electric		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobbles.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobbles and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.		Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.
	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
	Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.		Turbo: the heat comes from 3 directions: above, below and from the back of the oven The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

The oven cavity has 5 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
