

SF6400TB

Category	60cm Single Ovens
Product Family	Oven
Power supply	Electric
Heat source	Electric
Cooking method	Thermo-ventilated
Cleaning system	Vapor Clean
EAN code	8017709324902

Aesthetics

Aesthetics	Cucina	Serigraphy type	Symbols
Colour	Black	Door	Full glass
Finishing	Gloss	Handle	Squared Selection
Design	Flat	Handle Colour	Black
Material	Glass	Logo	Silk screen
Type of steel	Brushed	Control knobs	Cucina restyling
Glass Type	Clear1	Controls colour	Black
Serigraphy colour	Grey		

Controls

			
Display name	DigiScreen	Control setting	Knobs & touch buttons
Display technology	LED	No. of controls	2

Speed Reduction

Yes

Cooling System

Usable cavity space
dimensions (HxWxD)

360x460x425 mm

Temperature control

Electro-mechanical

Large grill - Power	2700 W	Cavity material	Easy clean enamel
Circular heating element - Power	2000 W		
Heating suspended when door is opened	Yes		

Performance / Energy Label

Energy efficiency class	A	Energy consumption in forced air convection	2.88 MJ
Net volume of the cavity	70 litres	Energy consumption per cycle in fan-forced convection	0.80 kWh
Energy consumption per cycle in conventional mode	1.15 kWh	Number of cavities	1
Energy consumption in conventional mode	4.14 MJ	Energy efficiency index	95,2 %

Accessories Included

Chrome shelf	1	Extra deep enamelled tray (40mm)	1
--------------	---	----------------------------------	---

Electrical Connection

Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	13 A	Power supply cable length	150 cm
Nominal power (W)	3000 W		

Compatible Accessories

BN620-1

Enamelled tray, 20mm deep

GTP

****Partially extractable telescopic guides (1 level)**** Extraction: 300 mm Material: Stainless steel AISI 430 polished

PALPZ

Pizza shovel with fold away handle
width: 315mm length : 325mm

BN640

Enamelled tray, 40mm deep

GTT

****Totally extractable telescopic guides (1 level)**** Extraction: 433 mm Material: Stainless steel AISI 430 polished

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

Symbols glossary

	A: Product drying performance, measured from A+++ to D / G depending on the product family		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Triple glazed doors: Number of glazed doors.
	Electric		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.		Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.		The touch timer display or DigiScreen guarantees simple functionality. They display the time, set programmed cooking and the minute minder timer.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.
	Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.		All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
	The inner door glass: can be removed with a few quick movements for cleaning.		Side lights: Two opposing side lights increase visibility inside the oven.
	Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.		The oven cavity has 5 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
