

SF64M3PZB

Category	60 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Ever Clean enamel
Pizza Oven	Yes
EAN code	8017709333966

Aesthetics

Aesthetic	Selezione	Serigraphy type	Symbols
Colour	Black	Door	Full glass
Design	Flat	Handle	Selection squared
Component finish	Stainless steel	Handle Colour	Black
Material	Glass	Logo	Silk screen
Type of steel	Brushed	Control knobs	Cucina restyling
Glass Type	Clear	Controls colour	Black
Serigraphy colour	Grey		

Controls

Control setting	Knobs	No. of controls	3
-----------------	-------	-----------------	---

Programs / Functions main oven

No. of cooking functions	8
Traditional cooking functions	

Static	Fan assisted	Circulaire
Eco	Large grill	Fan grill (large)
Fan assisted base	Pizza	

Other functions

Leavening

Options

Time-setting options	Automatic end cooking	Timer	1
Minute minder	Yes		

Technical Features

Minimum Temperature	50 °C	Door opening type	Standard opening
Maximum temperature	250 °C	Door	Fresh Touch
No. of shelves	5	Removable door	Yes
N. of fans	1	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	Total no. of door glasses	3
User-replaceable light	Yes	Cooling system	Tangential
Light Power	40 W	Cooling duct	Double
Lower heating element power	1100 W	Speed Reduction	Yes
Upper heating element - Power	1000 W	Cooling System	
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	331x460x412 mm
Large grill - Power	2700 W	Temperature control	Electro-mechanical
Circular heating element - Power	2000 W	Cavity material	Ever clean Enamel

Performance / Energy Label

Energy efficiency class	A	Energy consumption in forced air convection	2,81 MJ
Net volume of the cavity	65 l	Energy consumption per cycle in fan-forced convection	0,78 kWh
Energy consumption per cycle in conventional mode	1,09 kWh	Number of cavities	1
Energy consumption in conventional mode	3,92 MJ	Energy efficiency index	95,1 %

Accessories included

Rack with back stop	1	Pizza Accessories	Refractory stone (round without handles) + cover
Enamelled deep tray (40mm)	1		

Electrical Connection

Plug	Not present	Nominal power	3000 W
Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	13 A	Power supply cable length	150 cm

Compatible Accessories

BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

Triple glazed doors: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment

Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

Air cooling system: to ensure a safe surface temperatures.

Electric

Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Pizza function: Some ovens have an exclusive "Pizza" function which provides direct contact of the refractory stone for cooking pizza with low heating element. This allows cooking pizza in just 3 - 5 minutes, depending on the filling. This function is also ideal for cooking pies, baked fish and vegetables.

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

The oven cavity has 5 different cooking levels.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
