

SF6905X1

Category 60cm Single Ovens

Product Family Oven
Power supply Electric
Heat source Electric

Cooking method Thermo-ventilated
Cleaning system Vapor Clean

EAN code 8017709241513

Options			
Time-setting options	Automatic end cooking	Minute minder	Yes
Technical Features			
.5			
Minimum Temperature	60 °C	Door opening type	Standard opening
Maximum temperature	250 °C	Door	Temperate door
Shelf positions	5	Removable door	Yes
No. of lights	2	Full glass inner door	Yes
Light type	Halogen	Removable inner door	Yes
Light power	40 W	Total no. of door glasses	
Light when door is opened	Yes	Cooling system	Tangential Double
Lower heating element	1200 W	Cooling duct Speed Reduction	Yes
power		Cooling System	165
Upper heating element - Power		Usable cavity space dimensions (HxWxD)	360x460x425 mm
Grill element - power	1700 W	Temperature control	Electro-mechanical
Large grill - Power	2700 W	Cavity material	Easy clean enamel
Circular heating element	2000 W		
- Power Heating suspended	Yes		

Performance / Energy Label

Energy efficiency class A Net volume of the cavity 70 litres Energy consumption in forced air convection

2.88 MJ

Energy consumption per 1.15 kWh

Accessories Included

Chrome shelf 1 Extra deep enamelled 1

tray (40mm)

Electrical Connection

Voltage 220-240 V Frequency (Hz) 50/60 Hz
Current 13 A Power supply cable 150 cm
Nominal power (W) 3000 W length

Compatible Accessories

BN620-1

Enamelled tray, 20mm deep

GTP

Partially extractable telescopic quides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

Pizza shovel with fold away handle

width: 315mm length: 325mm

BN640

Enamelled tray, 40mm deep

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

STONE2

PALPZ

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

SF6905N1 Black

Symbols glossary

A: Product drying performance, measured from A+++ to D / G depending on the product family

Air cooling system: to ensure a safe surface temperatures.

Triple glazed doors: Number of glazed doors.

Electric

Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.

Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.

Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.

Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.

Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

The oven cavity has 5 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
