#### BN620-1

Enamelled tray, 20mm deep

#### **GTP**

\*\*Partially extractable telescopic quides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

#### KIT330X

Trim kit for 45 cm Classica ovens

# PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

#### **BN640**

Enamelled tray, 40mm deep

#### GTT

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

#### **PALPZ**

Pizza shovel with fold away handle width: 315mm length: 325mm

#### STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical woodfired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

## Symbols glossary

cooking.

methods.

(સ્ટ્ર)

δ	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Combination microwave: This oven allows to combine two different ways of cooking

(Traditional with microwaves). Combined ovens increase cooking opportunities, while providing

Fingerprint proof stainless steel: Fingerprint proof

stainless steel keeps stainless steel looking as

automatically after one minute from the start of

good as new.

- Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
  - Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.
  - Circulaire: The combination of the fan and circular ECO: The combination of the grill, fan and lower ECO element around it gives a hot air cooking method. element is particularly suitable for cooking small This provides many benefits including no preheat quantities of food. if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
    - Grill element: Using of grill gives excellent results Fan with grill element: The fan reduces the fierce when cooking meat of medium and small heat from the grill, providing an excellent method portions, especially when combined with a of grilling various foods, chops, steaks, sausages rotisserie (where possible). Also ideal for cooking etc. giving even browning and heat distribution, sausages and bacon. without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.

Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.

Fan combined with traditional cooking, where heat is generated from above and below, provides uniform heat. Adding the microwave function allows the same cooking results in less time.

This function can reheat precooked dishes, without becoming dry or hard.

Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.

Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.

Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height.

Available in several types and in different styles.

KEEP\_WARM\_72dpi

Side lights: Two opposing side lights increase visibility inside the oven.

Warming up: An option for dish warming and keeping the prepared meals hot.

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.

Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works

Touch guide: By holding down any symbol for 3 seconds you can get information on its function

The oven cavity has 3 different cooking levels.

Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 °C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
