

# SFP6604NRE

Category	60cm
Product Family	Oven
Power supply	Electric
Heat source	Electric
Cooking method	Thermo-ventilated
Cleaning system	Pyrolytic
EAN code	8017709217884

## Aesthetics

Aesthetics	Dolce Stil Novo	Glass Type	Eclipse
Colour	Black	Door	Full glass
Finishing	Gloss	Handle	Dolce Stil Novo
Design	Flat	Handle Colour	Black
Component finish	Copper	Logo	Applied
Material	Glass		

## Controls

			
Display technology	TFT	No. of display languages	11
Control setting	Touch control	Display languages	Italiano, English (UK), Français (FR), Nederlands, Español (ES), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, Polski

## Programs / Functions

No. of cooking functions	10
Automatic programmes	50
Customisable recipes	10

## Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo (circulaire + bottom + upper + fan)	 ECO	 Large grill
 Fan grill (large)	 Circulaire + grill	 Base
 Fan assisted base		

## Other functions

 Defrost by time	 Defrost by weight	 Proving
 Plate rack/warmer	 Sabbath	

## Cleaning functions

 Pyrolytic	 Pyrolytic eco
--	---

## Options

<b>Time-setting options</b>	Delay start and automatic end cooking	<b>Other options</b>	SmartCook system, Keep warm, Eco light, Language setting, Digital clock display, Tones
Minute minder	Yes	<b>Smart cooking</b>	Yes
Timer	1	<b>Showroom demo option</b>	Yes
Controls Lock / Child Safety	Yes	<b>Rapid pre-heating</b>	Yes

## Technical Features

<b>Minimum Temperature</b>	30 °C	<b>Door opening type</b>	Standard opening
<b>Maximum temperature</b>	280 °C	<b>Door</b>	Cool
<b>Shelf positions</b>	5	<b>Removable door</b>	Yes
<b>No. of lights</b>	2	<b>Full glass inner door</b>	Yes
<b>Light type</b>	Halogen	<b>Removable inner door</b>	Yes
<b>User-replaceable light</b>	Yes	<b>Total no. of door glasses</b>	4
<b>Light power</b>	40 W	<b>Soft Close hinges</b>	Yes
<b>Light when door is opened</b>	Yes	<b>Cooling system</b>	Tangential
		<b>Cooling duct</b>	Double

Lower heating element power	1200 W	Speed Reduction Cooling System	Yes
Upper heating element - Power	1000 W	Door Lock During Pyrolysis	Yes
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	360x460x425 mm
Large grill - Power	2700 W	Temperature control	Electronic
Circular heating element - Power	2000 W	Cavity material	Easy clean enamel
Heating suspended when door is opened	Yes		

## Performance / Energy Label

Energy efficiency class	A+	Energy consumption in forced air convection	2.45 MJ
Net volume of the cavity	70 litres	Energy consumption per cycle in fan-forced convection	0.68 kWh
Energy consumption per cycle in conventional mode	1.09 kWh	Number of cavities	1
Energy consumption in conventional mode	3.92 MJ	Energy efficiency index	81 %

## Accessories Included

Chrome shelf with back and side stop	2	Grill mesh	1
Enamelled tray (20mm)	1	Telescopic Guide rails, total Extraction	1
Extra deep enamelled tray (40mm)	1		

## Electrical Connection

Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	13 A	Power supply cable length	115 cm
Nominal power (W)	3000 W		

## Not included accessories

### PR3845N

Black spacer cover for furniture when more ovens are installed in column. Suitable for 45cm Dolce Stil Novo compact ovens.

### PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

### BN620-1

Enamelled tray, 20mm deep

### GTT

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

### GTP

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

### PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

### PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

### BN640

Enamelled tray, 40mm deep

## Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Defrost by weight: With this function the defrosting time is determined
	Quadruple glazed: Number of glazed doors.		EASYGUIDE_72dpi
	A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.		Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.
	Electric		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.		Circogas: In gas ovens the fan distributes the heat quickly and evenly throughout the oven cavity, avoiding flavour transfer when cooking a number of different dishes at the same time. In electric ovens this combination completes cooking more quickly of foods that are ready on the surface, but that require more cooking inside, without further browning.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.		Circulaire + grill: Circulaire with upper element or grill: Similar to fan with upper element with the added cooking speed of circulaire, ideal for dishes with a crispy topping. When used with the grill the food will brown more quickly.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.

	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.
	Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.		All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
	The inner door glass: can be removed with a few quick movements for cleaning.		Keep warm: This function allows you to keep precooked foods warm.
	Side lights: Two opposing side lights increase visibility inside the oven.		Pyrolitic: Pyrolitic cleaning cycles can be selected as necessary to automatically clean the oven interior.
	Pyrolitic: The Eco pyrolitic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.		Warming up: An option for dish warming and keeping the prepared meals hot.
	ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.		Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted
	Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.		Sabbath: This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.
	The oven cavity has 5 different cooking levels.		Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.
	Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.		Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.
	Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.		Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.
	The capacity indicates the amount of usable space in the oven cavity in litres.
