

SFP6925PPZE1

Category	60 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Pyrolitic
Pizza Oven	Yes
EAN code	8017709241759

Aesthetics

Aesthetic	Victoria	Door	With panel
Colour	Cream	Handle	Victoria
Design	Rounded	Handle Colour	Steel effect
Material	Painted material	Logo	Applied
Glass Type	Clear	Control knobs	Victoria
Serigraphy colour	Black	Controls colour	Steel effect
Serigraphy type	Symbols		

Controls

Display technology	LCD	No. of controls	2
Control setting	Knobs		

Programs / Functions main oven

No. of cooking functions	10
Automatic programmes	20

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Large grill
 Fan grill (large)	 Base	 Fan assisted base
 Pizza		

Other functions

 Defrost by time	 Defrost by weight	 Leavening
 Sabbath		

Cleaning functions

 Pirolysis	 Pirolysis eco
--	---

Options

Time-setting options

Delay start and automatic end cooking

Minute minder

Yes

Controls Lock / Child Safety

Yes

Other options

Showroom demo option

Keep warm, Eco light

Yes

Rapid pre-heating

Yes

Technical Features

Capacity (Lt)	65 l
Minimum Temperature	30 °C
Maximum temperature	280 °C
No. of shelves	5
N. of fans	1
No. of lights	2
Light type	Halogen
Light Power	40 W
Light when door is opened	Yes
Lower heating element power	1100 W
Upper heating element - Power	1000 W
Grill element - power	1700 W
Large grill - Power	2700 W

Door opening type	Standard opening
Door	Cool
Removable door	Yes
Full glass inner door	Yes
Removable inner door	Yes
Total no. of door glasses	4
Soft Close hinges	Yes
Cooling system	Tangential
Cooling duct	Double
Speed Reduction Cooling System	Yes
Door Lock During Pyrolysis	Yes
Usable cavity space dimensions (HxWxD)	331x460x412 mm
Temperature control	Electronic

Circular heating element 2000 W

- Power

**Heating suspended
when door is opened** Yes

Cavity material

Ever clean Enamel

Performance / Energy Label

Energy efficiency class A+
Net volume of the cavity 65 l
**Energy consumption per
cycle in conventional
mode** 1.05 kWh
**Energy consumption in
conventional mode** 3.78 MJ

**Energy consumption in
forced air convection** 2.38 MJ
**Energy consumption per
cycle in fan-forced
convection** 0.66 kWh
Number of cavities 1
Energy efficiency index 80.5 %

Accessories included

**Rack with back and side
stop** 2
Enamelled tray (20mm) 1
**Enamelled deep tray
(40mm)** 1

Insert gird 1
**Telescopic Guide rails,
total Extraction** 1
Pizza Accessories Refractory stone (round
without handles) + cover +
shovel

Electrical Connection

Voltage 220-240 V
Plug (I) Australia
Current 13 A

Nominal power 3000 W
Frequency (Hz) 50/60 Hz
**Power supply cable
length** 115 cm

Compatible Accessories

BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

PR3845X

Antifingerprint stainless steel. Cover for furniture in column installation of more ovens

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
	Defrost by weight: Automatic defrost function. You choose the type of food to defrost from the available categories (MEAT - FISH - BREAD - DESSERTS). After entering the weight of the food, the oven automatically defines the time required for proper defrosting.		Quadruple glazed: Number of glazed doors.
	Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking. The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.		Electric
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.		Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.

 Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.	 ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.
 Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.	 Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.
 Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.	 Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.
 All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.	 The inner door glass: can be removed with a few quick movements for cleaning.
 KEEP_WARM_72dpi	 Side lights: Two opposing side lights increase visibility inside the oven.
 PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.	 Pyrolitic: The Eco pyrolitic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.
 Pizza function: Some ovens have an exclusive "Pizza" function which provides direct contact of the refractory stone for cooking pizza with low heating element. This allows cooking pizza in just 3 - 5 minutes, depending on the filling. This function is also ideal for cooking pies, baked fish and vegetables.	 ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.
 Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted	 Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.
 SABBATH: function that allows to cook food respecting Judaism's day of rest provisions.	 The oven cavity has 5 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

The capacity indicates the amount of usable space in the oven cavity in litres.
