

SFR9300X

Category	Reduced height 90 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Vapor Clean
EAN code	8017709258214

Aesthetics

Aesthetic	Classica	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Design	Flat	Handle	Classic
Material	Stainless steel	Handle Colour	Inox
Type of steel	Brushed	Logo	Embossed
Glass Type	Eclipse	Control knobs	Classic
Serigraphy colour	Black	Controls colour	Steel effect

Controls

Display name	DigiScreen	Control setting	Knobs & touch buttons
Display technology	LED	No. of controls	2

Programs / Functions main oven

No. of cooking functions	8
Traditional cooking functions	

Static	Fan assisted	Circulaire
Eco	Large grill	Fan grill (large)
Base	Circulaire + bottom	

Cleaning functions

Options

Time-setting options	Delay start and automatic end cooking	Minute minder	Yes
----------------------	---------------------------------------	---------------	-----

Technical Features

Minimum Temperature	30 °C	Circular heating element 2 - Power	1550 W
Maximum temperature	260 °C	Heating suspended when door is opened	Yes
No. of shelves	4	Door opening type	Standard opening
N. of fans	2	Door	Cool
No. of lights	2	Removable door	Yes
Light type	Halogen	Full glass inner door	Yes
User-replaceable light	Yes	Removable inner door	Yes
Light Power	40 W	Total no. of door glasses	3
Light when door is opened	Yes	Cooling system	Tangential
Lower heating element power	1700 W	Cooling duct	Single
Upper heating element - Power	1200 W	Speed Reduction Cooling System	Yes
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	283x724x418 mm
Large grill - Power	2900 W	Temperature control	Electronic
Circular heating element - Power	1550 W	Cavity material	Ever clean Enamel

Performance / Energy Label

Energy efficiency class	A+	Energy consumption in forced air convection	2,66 MJ
Net volume of the cavity	85 l	Energy consumption per cycle in fan-forced convection	0,74 kWh
Energy consumption per cycle in conventional mode	1,15 kWh	Number of cavities	1
Energy consumption in conventional mode	4,14 MJ	Energy efficiency index	81,3 %

Accessories included

Rack with back stop	1	Insert grid	1
Enamelled deep tray (40mm)	1		

Electrical Connection

Plug	Not present	Nominal power	3100 W
Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	14 A	Power supply cable length	150 cm

Compatible Accessories

BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

Symbols glossary

	A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.		Air cooling system: to ensure a safe surface temperatures.
	Triple glazed doors: Number of glazed doors.		Electric
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking		Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.
	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.		Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment
	Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.		Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Compact appliances with a height of 48 cm. Perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.

The inner door glass: can be removed with a few quick movements for cleaning.

The oven cavity has 4 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

4.3 inch display with LED technology, usability with knobs + 3 touch keys

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

Side lights: Two opposing side lights increase visibility inside the oven.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.
