

SFR9302TX

Category	Reduced height 90 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Vapor Clean
EAN code	8017709326548

Aesthetics

Aesthetic	Classica	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Inox
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Controls

Display name	EvoScreen	Control setting	Knobs & touch buttons
Display technology	LCD	No. of controls	2

Programs / Functions main oven

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Large grill
 Fan grill (large)	 Base	 Circulaire + bottom
 Pizza		

Other functions

 Defrost by time	 Leavening	 Sabbath
--	---	---

Cleaning functions

 Vapor Clean
--

Options

Time-setting options	Delay start and automatic end cooking	Other options	Keep warm, Eco light, Brightness, Tones
Minute minder	Yes	Showroom demo option	Yes
Timer	1	Rapid pre-heating	Yes
Controls Lock / Child Safety	Yes		

Technical Features

Capacity (Lt)	70 l	Circular heating element	1550 W
Minimum Temperature	25 °C	2 - Power	
Maximum temperature	280 °C	Heating suspended when door is opened	Yes
No. of shelves	4	Door opening type	Standard opening
N. of fans	2	Door	Cool
No. of lights	2	Removable door	Yes
Light type	Halogen	Full glass inner door	Yes
User-replaceable light	Yes	Removable inner door	Yes
Light Power	40 W	Total no. of door glasses	3
Light when door is opened	Yes	Soft Close hinges	Yes
Lower heating element power	1700 W	Cooling system	Tangential
Upper heating element - Power	1200 W	Cooling duct	Double
Grill element - power	1700 W	Speed Reduction	Yes
Large grill - Power	2900 W	Cooling System	

Circular heating element 1550 W
- Power

Usable cavity space dimensions (HxWxD) 283x724x418 mm
Temperature control Electronic
Cavity material Ever clean Enamel

Performance / Energy Label

Energy efficiency class A+
Net volume of the cavity 85 l
Energy consumption per cycle in conventional mode 0,73 kWh
Energy consumption in conventional mode 2,63 MJ

Energy consumption in forced air convection 4,50 MJ
Energy consumption per cycle in fan-forced convection 1,25 kWh
Number of cavities 1
Energy efficiency index 80,2 %

Accessories included

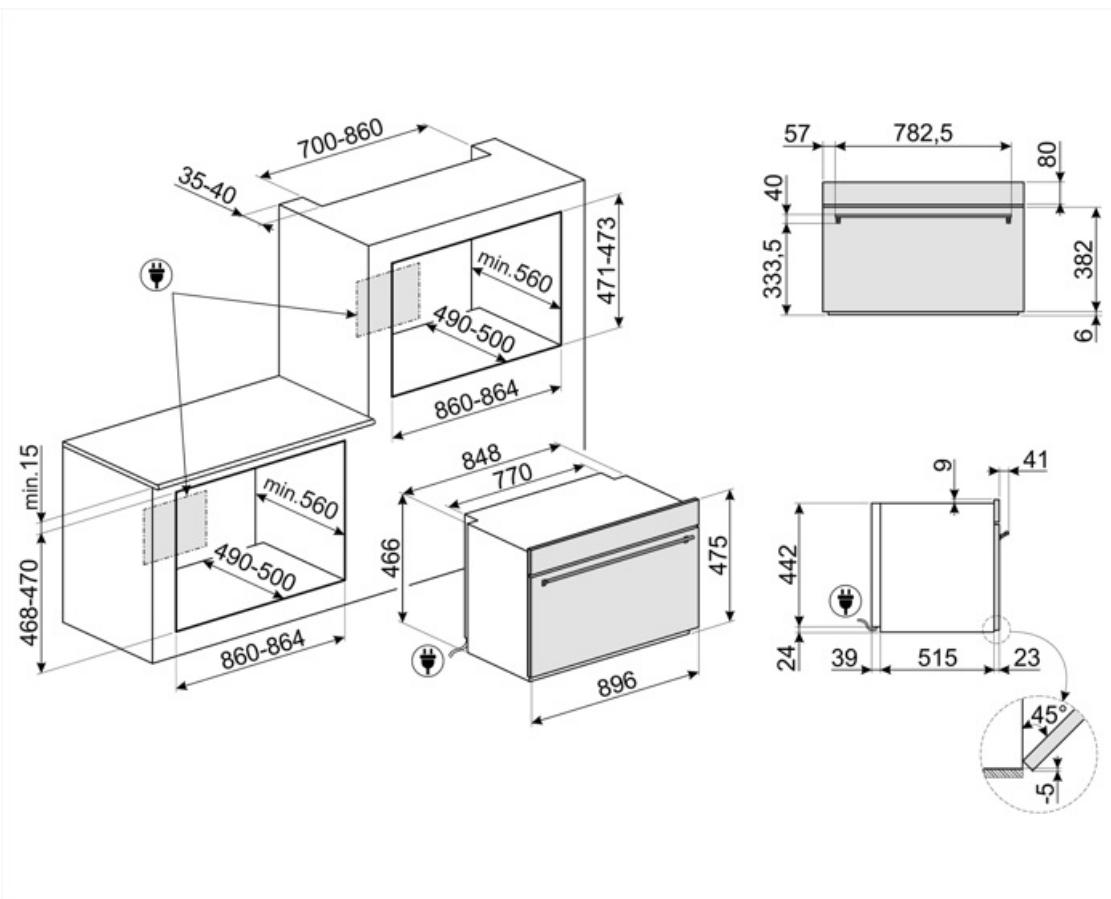

Rack with back stop 1
Enamelled deep tray (40mm) 1

Insert gird 1
Telescopic Guide rails, total Extraction 1

Electrical Connection

Voltage 220-240 V
Plug Not present
Current 14 A

Nominal power 3100 W
Frequency (Hz) 50/60 Hz
Power supply cable length 150 cm

Compatible Accessories

BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

 A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.	 Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
 Air cooling system: to ensure a safe surface temperatures.	 Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
 Triple glazed doors: Number of glazed doors.	 Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking. The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.
 Electric	 Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.
 Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.	 Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
 Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.	 Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.
 Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.	 Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

 ECO	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.	 Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
 Fan grill	Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.	 Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.
 Turbo	Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.	 Compact appliances with a height of 48 cm. Perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.
 All glass inner door	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.	 The inner door glass: can be removed with a few quick movements for cleaning.
 KEEP_WARM_72dpi		 Side lights: Two opposing side lights increase visibility inside the oven.
 Air at 40°C	Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted	 Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.
 SABBATH	function that allows to cook food respecting Judaism's day of rest provisions.	 The oven cavity has 4 different cooking levels.
 Soft close	all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.	 Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.
 Electronic control	Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.	 Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.
 85 lt	The capacity indicates the amount of usable space in the oven cavity in litres.	 The new EVOscreen display is enhanced with new, optimised colour graphics: 5 touch buttons control functions and parameters in an extremely simple way.
