Options

| | | | |
|----------------------|-----------------------|-------|---|
| Time-setting options | Automatic end cooking | Timer | 1 |
| Minute minder | Yes | | |

Technical Features

| | | | |
|----------------------------------|---------|--|--------------------|
| Capacity (Lt) | 70 l | Circular heating element | 1550 W |
| Minimum Temperature | 60 °C | 2 - Power | |
| Maximum temperature | 250 °C | Door opening type | Standard opening |
| No. of shelves | 4 | Door | Cool |
| N. of fans | 2 | Removable door | Yes |
| No. of lights | 1 | Full glass inner door | Yes |
| Light type | Halogen | Removable inner door | Yes |
| User-replaceable light | Yes | Total no. of door glasses | 3 |
| Light Power | 40 W | Cooling system | Tangential |
| Lower heating element power | 1700 W | Cooling duct | Single |
| Upper heating element - Power | 1200 W | Speed Reduction | Yes |
| Grill element - power | 1700 W | Cooling System | |
| Large grill - Power | 2900 W | Usable cavity space dimensions (HxWxD) | 283x724x418 mm |
| Circular heating element - Power | 1550 W | Temperature control | Electro-mechanical |
| | | Cavity material | Ever clean Enamel |

Performance / Energy Label

| | | | |
|---|----------|---|----------|
| Energy efficiency class | A | Energy consumption in forced air convection | 3,49 MJ |
| Net volume of the cavity | 85 l | Energy consumption per cycle in fan-forced convection | 0,97 kWh |
| Energy consumption per cycle in conventional mode | 1,15 kWh | Number of cavities | 1 |
| Energy consumption in conventional mode | 4,14 MJ | Energy efficiency index | 106,6 % |

Accessories Included

| | | | |
|----------------------------|---|-------------|---|
| Rack with back stop | 1 | Insert gird | 1 |
| Enamelled deep tray (40mm) | 1 | | |

Electrical Connection

| | | | |
|---------|-----------|---------------|--------|
| Voltage | 220-240 V | Nominal power | 3100 W |
|---------|-----------|---------------|--------|

| | | | |
|---------|-------------|---------------------------|----------|
| Plug | Not present | Frequency (Hz) | 50/60 Hz |
| Current | 14 A | Power supply cable length | 150 cm |

Compatible Accessories

BNP608T

Teflon-coated tray, 8mm depth, to be placed on the grid

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

Triple glazed doors: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Compact appliances with a height of 48 cm. Perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.

Air cooling system: to ensure a safe surface temperatures.

Electric

Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment

Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

The oven cavity has 4 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
