

# SI1F7635B

Product Family	Hob
Built-in type	Ultra-low profile
Dimensions	60 cm
Power supply	Electric
Type	Induction
EAN code	8017709254988

## Aesthetics

Aesthetic	Universale
Colour	Black
Finishing	Glass
Material	Glass
Glass type	Ceramic
Glass edge	Bevelled Front Edge
Type of control setting	Multi Slider
Slider	Yes
LED colours	Red
Control knob position	Front
Serigraphy colour	Grey

## Program / Functions

No. of induction cook zones	3
No. of cooking zones with booster	3
No. of Flexible zones	1
Main on/off switch	Yes
Power levels	14
Auto-Vent	Yes
Total no. of cook zones	3

## Options

<b>Flexible Zone Type</b>	Flexi4Zone	<b>Limited Power Consumption Mode</b>	Si Advance
<b>Worktop Cut-Out</b>	490x560 mm	<b>Limited Power Consumption Mode in W</b>	1500, 2000, 2500, 3000, 3500, 4000, 4500, 5000, 6000, 7200 W
<b>End cooking timer</b>	3	<b>Showroom Demo Option</b>	Yes
<b>Pause option</b>	Yes	<b>Control Lock / Child Safety</b>	Yes
<b>Minute minder</b>	3	<b>Rapid level selection</b>	Yes
<b>End of cooking alarm</b>	Yes	<b>Flexi-Heat</b>	Yes
<b>Residual time indicator</b>	Yes		

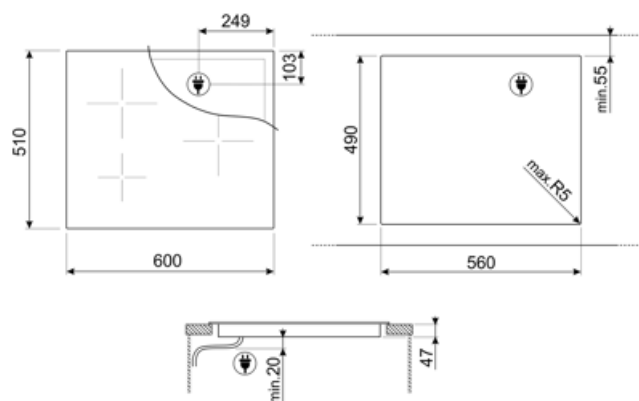

## Technical Features

<b>Front-left - Induzione - Flexi4Zone - 2.30 kW - Booster 3.20 kW - Ø 22 cm</b>			
<b>Rear-left - Induzione - Flexi4Zone - 2.30 kW - Booster 3.20 kW - Ø 22 cm</b>			
<b>Front-right - Induction - Giant - 1.80 kW - Booster 3.50 - 3.60 kW - Ø 18/28 cm</b>			
<b>Flexi4Zone dimensions</b>	459x214 mm	<b>Automatic switch off when overheat</b>	Yes
<b>Automatic setting according to pan dimension</b>	Yes	<b>Automatic switch off when overflow</b>	Yes
<b>pan detection</b>	Yes	<b>Eco-Heat</b>	Yes
<b>Minimum pan diameter indication</b>	Yes	<b>Eco-Off</b>	Yes

## Electrical Connection

<b>Plug</b>	Not present	<b>Type of electric cable installed</b>	Universal
<b>Electrical connection rating (W)</b>	7200 W	<b>Frequency (Hz)</b>	50/60 Hz
<b>Current</b>	33 A	<b>Power supply cable length</b>	150 cm
<b>Voltage (V)</b>	220-240 V	<b>Terminal box</b>	5 poles
<b>Voltage 2 (V)</b>	400 V		

---

## Compatible Accessories

---

### SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

### TPK

Stainless steel grill plate to cook Teppanyaki dishes

## Symbols glossary

	A smart infrared system, which allows a hood and hob with this feature to work together.		Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Ultra-low profile: Installation of product with flat edge - height of 1 mm.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	Premium individual Slider control for each zone		The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
	Eco-Heat: this function warns when the zone is still hot after being switched off. As well as ensuring maximum safety by preventing burns, this also allows you to make use of residual heat to continue cooking or keep foods hot.		Eco-Off: This energy-saving function shuts the zone down before the timer sounds, making use of the residual heat in the pan.
	This function allows you to move pans between three preset temperature zones, to quickly heat (high temperature), cook (medium temperature) or keep foodstuffs warm (minimum temperature), without the need to raise or lower the temperature – simply move pans between the three zones, as required. The preset power levels can also be modified.		This function allows you to use multiple pans of various dimensions (minimum diameter 10 cm) at the same time, increasing flexibility of positioning.
	Giant zone: The giant zone offers extra space and flexibility.		Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
	Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	All cooking zones can be reduced to the minimum power level, so the hob can be left unattended for a short period without food overcooking or burning. Then just press again this function, the previously set power levels can be reactivated.		Possibility to set the maximum power absorption of the hob
	Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).		Time elapsed: shows how long the cooking zone has been in use.
	Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.		

---

## Benefit (TT)

---

### **Induction hobs**

Fast cooking and precise temperature control

### **Glass**

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space

### **Ceramic**

Stability and design even up to 700 °C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use

Precise and versatile cooking with Multi Slider controls and white LEDs, combining functionality with minimal design

### **Control knob position frontal**

Instant and intuitive control thanks to front controls, easily accessible for practical use

Cooking always under control with 14 power levels, ensuring maximum precision
