

SI2M5643D1

Product Family	Hob
Built-in	Ultra-low profile or Fully Flushed
Dimensions	60 cm
Power supply	Electric
Type	Induction
EAN code	8017709337940

Aesthetics

Aesthetics	Universal
Colour	Black
Finishing	Glass
Material	Glass
Glass Type	Ceramic
Glass edge	Straight edge
Type of control setting	Compact Lite
Slider	Yes
Slider	Red
Control knobs position	Front
Serigraphy colour	Grey

Program / Functions

No. of induction cook zones	4
Time-setting options	Automatic switch-off
No. of cooking zones with booster	4
No. of Flexible zones	2
Main on/off switch	Yes
Power levels	17
Total no. of cook zones	4

Options

Multizone Option	Yes	End of cooking acoustic alarm	Yes
Flexible Zone Type	MultiZone	Residual time indicator	Yes
Standard cut out	478-482x555-560 mm	Limited Power Consumption Mode	Yes advance
Auto Multizone	Yes	Limited Power Consumption Mode in W	2400 a 7400 - step 100 W
Double Booster	Yes	Show Room Demo Option	Yes
Keep warm automatic function	Yes	Control Lock / Child Safety	Yes
Grill function	Yes	Cleaning option	Yes
End cooking timer	4	Quick start	Yes
Pause option	Yes	Rapid level selection	Yes
Minute minder	1		

Technical Features

Front left - Induction - single - 2.10 kW - Booster 2.50 - 3.00 kW - Double booster 3.00 kW - Ø 18.0 cm
 Rear left - Induction - single - 2.10 kW - Booster 2.50 - 3.00 kW - Double booster 3.00 kW - Ø 18.0 cm
 Rear right - Induction - single - 2.10 kW - Booster 2.50 - 3.00 kW - Double booster 3.00 kW - Ø 18.0 cm
 Front right - Induction - single - 2.10 kW - Booster 2.50 - 3.00 kW - Double booster 3.00 kW - Ø 18.0 cm
 Multizone left - Booster 3.70 kW
 Multizone right - Booster 3.70 kW - 36.0x22.0 cm

Automatic setting according to pan dimension	Yes	Automatic switch off when overflow	Yes
Automatic pan detection	Yes, min 9 cm	Residual heat indicator	Yes
Permanent Automatic Pot Detection with indication of the relative control	Yes	Eco-Heat	Yes
Minimum pan diameter indication	Yes	Protection against accidental start up	Yes
Automatic switch off when overheat	Yes		

Electrical Connection

Nominal power (W)	7400 W	Type of electric cable	Yes, Double and Three Phase
Current	33 A	Frequency (Hz)	50/60 Hz
Voltage (V)	220-240 V	Power supply cable length	120 cm
Voltage 2 (V)	380-415 V	Terminal Box	5 poles
Type of electric cable	Single phase		

Compatible Accessories

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

SCRP

Induction and ceramic hobs and teppanyaki scraper

Symbols glossary

	Automatic merge of zones for a bigger area		...
	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	The slider control panel allows you to adjust the power simply by passing your finger across the touch device.		CUT_OUT_STANDARD_72dpi
	Additional maximum power level for a better energy consumption		Eco-Heat: this function warns when the zone is still hot after being switched off. As well as ensuring maximum safety by preventing burns, this also allows you to make use of residual heat to continue cooking or keep foods hot.
	...		Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.
	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
	Multizone: allows several pans to be used at once, large or small, offering freedom of placement and greater flexibility		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	...		PAUSE_72dpi
	...		Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
	Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.		Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.
	Time elapsed: shows how long the cooking zone has been in use.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

Benefit

Induction hobs

Fast cooking and precise temperature control thanks to powerful induction technology

Glass

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space.

Ceramic

Stability and design even up to 700°C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use.

Immediate access to functions via touch display, for simple and intuitive control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Keep Warm function

With the Keep Warm function, your food stays perfectly heated, ready to serve whenever you are

Extreme flexibility with 17 power levels for accurate temperature control

MultiZone

Large surface created by joining two contiguous zones, perfect for large dishes

In addition to their sleek aesthetics and contemporary design, Smeg induction hobs are equipped with innovative technologies. The Multizone function guarantees maximum flexibility in the use of the hob and endless cooking possibilities, expanding the cooking area to suit the shape and size of different pans

Grill function

The grill function delivers even heat distribution and needs just two minutes of preheating, for perfectly grilled results, fast

Permanent Automatic Pot Detection

Autopot detection knows exactly where your pot is and activates the right zone instantly for effortless precision, every time
