

SI4642B

Product Family	Hob
Built-in	Traditional
Dimensions	60 cm
Power supply	Electric
Type	Induction
EAN code	8017709288167

Aesthetics

Aesthetics	Universal
Colour	Black
Finishing	Glass
Material	Glass
Glass Type	Ceramic
Glass edge	Angled edge
Type of control setting	VTC controls
Slider	Yes
Slider	Red
Control knobs position	Front
Serigraphy colour	Grey

Program / Functions

No. of induction cook zones	4
Time-setting options	Automatic switch-off
No. of cooking zones with booster	4
Main on/off switch	Yes
Power levels	9
Total no. of cook zones	4

Options

Standard cut out	478-482x555-560 mm
Keep warm automatic function	Yes
End cooking timer	1
Pause option	Yes
Minute minder	1
End of cooking acoustic alarm	Yes

Residual time indicator	Yes
Limited Power Consumption Mode	Yes advance
Limited Power Consumption Mode in W	2400, 2800, 3500, 4000, 4500, 5000, 5500, 6000, 7400 W
Control Lock / Child Safety	Yes
Rapid level selection	Yes

Technical Features

Front left - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm
 Rear left - Induction - single - 1.85 kW - Booster 2.10 kW - Ø 16.0 cm
 Rear right - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm
 Front right - Induction - single - 1.85 kW - Booster 2.10 kW - Ø 16.0 cm

Automatic setting according to pan dimension	Yes	Automatic switch off when overheat	Yes
Automatic pan detection	Yes, min 7 cm	Residual heat indicator	Yes
Permanent Automatic Pot Detection with indication of the relative control	Yes	Protection against accidental start up	Yes
Minimum pan diameter indication	Yes		

Electrical Connection

Nominal power (W)	7400 W	Type of electric cable	Yes, Double and Three Phase
Current	33 A	Frequency (Hz)	50/60 Hz
Voltage (V)	220-240 V	Power supply cable length	120 cm
Voltage 2 (V)	380-415 V	Terminal Box	6 poles
Type of electric cable	Single phase		

Compatible Accessories

SCRP

Induction and ceramic hobs and
teppanyaki scraper

TPK

Stainless steel grill plate to cook
Teppanyaki dishes

Symbols glossary

	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Standard installation: Traditional installation in tabletop, suitable for any kitchen sets
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
	CUT_OUT_STANDARD_72dpi		Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.
	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
	PAUSE_72dpi		Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.		Time elapsed: shows how long the cooking zone has been in use.
	Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.		Permanent auto pot detection
	...		Possibility to set the maximum power absorbion of the hob
	Compact Slider intuitive and easy to use		

Benefit

Induction hobs

Fast cooking and precise temperature control thanks to powerful induction technology

Glass

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space.

Ceramic

Stability and design even up to 700°C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use.

Immediate access to functions via touch display, for simple and intuitive control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Keep Warm function

With the Keep Warm function, your food stays perfectly heated, ready to serve whenever you are

Nine power levels and Boost function for optimal cooking performance

Permanent Automatic Pot Detection

Autopot detection knows exactly where your pot is and activates the right zone instantly for effortless precision, every time
