

SI564DUK

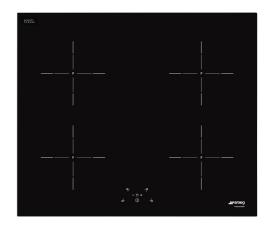

Product Family

Built-in type Ultra-low profile or Fully Flushed

Hob

Dimensions 60 cm
Power supply Electric
Type Induction

EAN code 8017709257415

Aesthetics

Aesthetic Universale Colour Black **Finishing** Glass Material Glass Glass type Ceramic Glass edge Straight edge Digi Touch Type of control setting Control knob position Front Serigraphy colour Grey

Program / Functions

No. of induction cook zones 4
No. of cooking zones with booster 4
Main on/off switch Yes
Power levels 9
Total no. of cook zones 4

Options

Worktop Cut-Out

478-482x555-560 mm

Limited Power Consumption Mode Yes

End cooking timer 4 **Limited Power** 3000, 4500 W

Consumption Mode in W 4 Minute minder Control Lock / Child Yes End of cooking alarm

Safety Residual time indicator Yes Rapid level selection Yes

Technical Features

Front-left - Induction - Single - 1.40 kW - Booster 1.40 kW - Ø 18.0 cm

Yes

Rear-left - Induction - Single - 1.40 kW - Booster 1.40 kW - Ø 18.0 cm

Rear-right - Induction - Single - 1.40 kW - Booster 1.40 kW - Ø 18.0 cm

Front-right - Induction - Single - 1.40 kW - Booster 1.40 kW - Ø 18.0 cm

Automatic setting Yes Automatic switch off Yes

according to pan when overheat

dimension Residual heat indicator Yes pan detection Yes **Protection against** Yes

Minimum pan diameter Yes accidental start up

indication

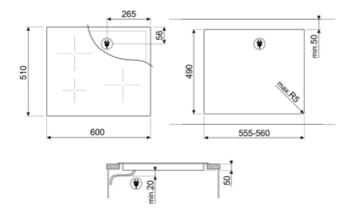

Electrical Connection

50/60 Hz **Electrical connection** 3000 W Frequency (Hz) rating (W) 120 cm Power supply cable

Current 13 A length

Voltage (V) 220-240 V Terminal box 6 poles Type of electric cable Yes, Single phase Plug UK

installed

Compatible Accessories

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

Stainless steel grill plate to cook Teppanyaki dishes

Symbols glossary

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Touch control

CUT_OUT_STANDARD_72dpi

ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

Benefit (TT)

Induction hobs

Fast cooking and precise temperature control

Glass

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space.

Ceramic

Stability and design even up to 700°C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use.

Immediate access to functions via touch display, for simple and intuitive control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Energy consumption optimization with Eco-Logic Advance, allowing absorption limitation from $2.4~\mathrm{kW}$ in $0.1~\mathrm{kW}$ steps

Nine power levels and Boost function for optimal cooking performance
