

SI964PM

Product Family Hob
Built-in Traditional
Dimensions 60 cm
Power supply Electric
Type Induction

EAN code 8017709275822

detection

Minimum pan diameter

indication

Automatic switch off

when overheat

Residual heat indicator Yes **Protection against** Yes

accidental start up

Electrical Connection

Nominal power (W) 7400 W

Current 33 A

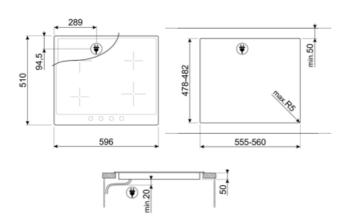

Voltage (V) 220-240 V

Voltage 2 (V) 380-415 V Type of electric cable Single phase

Type of electric cable Yes, Double and Three

Phase

50/60 Hz Frequency (Hz) **Terminal Box** 6 poles

Compatible Accessories

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

mm. TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

SCRP

Induction and ceramic hobs and teppanyaki scraper

Symbols glossary

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Standard installation: Traditional installation in tabletop, suitable for any kitchen sets

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Knobs control

CUT_OUT_STANDARD_72dpi

Darkness becomes light

ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Benefit

Induction hobs

Fast cooking and precise temperature control thanks to powerful induction technology

Eclipse

Minimal design and high performance meet in Eclipse black glass, with no visible screen printing

Accurate power adjustment via control knobs, for more precise cooking control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Energy consumption optimizsation with Eco-Logic Advance, allowing absorption limitation from 2.4 kW in 0.1 kW steps, reducing waste and lowering your electricity usage

Nine power levels and Boost function for optimal cooking performance
