

SIA1963D

Product Family

Built-in	Ultra-low profile or Fully Flushed
Dimensions	90 cm
Power supply	Electric
Type	Induction
EAN code	8017709304034

Aesthetics

Aesthetics

Colour	Universal
Finishing	Black
Material	Glass
Glass Type	Glass
Glass edge	Ceramic glass
Type of control setting	Straight edge
Slider	Vivo Screen Max
Slider	Yes
Control knobs position	TFT
Logo	Front
Serigraphy colour	Silk screen
Alternative colours available	Grey
	Grey, Silver

Program / Functions

No. of induction cook zones	6
Time-setting options	Automatic switch-off
No. of cooking zones with booster	6
Main on/off switch	Yes
Power levels	17

Options

	Multizone Option	Yes		Minute minder	1
	Flexible Zone Type	AreaZone		End of cooking acoustic alarm	Yes
	Standard cut out	500-916 mm		Residual time indicator	Yes
	Follow Pot	Yes		Limited Power	Yes advance
	Auto-boiling Function	Yes		Consumption Mode	
	Simmering Function	Yes		Limited Power	2400 a 11100 - step 100
	Keep warm automatic function	Yes		Consumption Mode in W	W
	Melting/Low temperature cooking function	Yes		Show Room Demo Option	Yes
	End cooking timer	6		Control Lock / Child Safety	Yes
	Pause option	Yes		Bridge option	Yes
				Quick start	Yes
				Rapid level selection	Yes

Technical Features

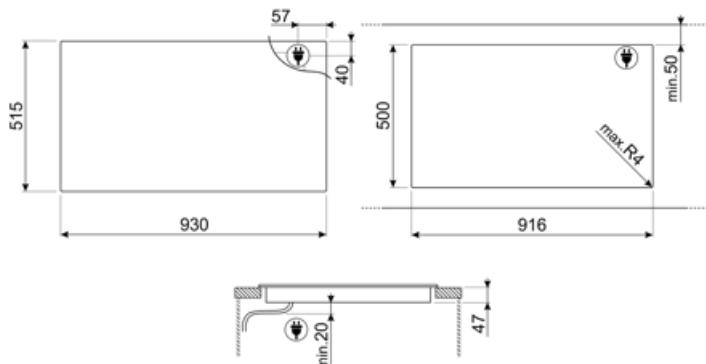

Central - Induction - Multizone - 2.40 kW - Booster 3.70 kW - 84.0x40.0 cm

Automatic setting according to pan dimension	Yes	Automatic switch off when overflow	Yes
Automatic pan detection	Yes, min 10 cm	Residual heat indicator	Yes
Permanent Automatic Pot Detection with indication of the relative control	Yes	Protection against accidental start up	Yes
Automatic switch off when overheat	Yes		

Electrical Connection

Nominal power (W)	11100 W	Type of electric cable supplied	Yes, Single and Double phase
Current	49 A	Frequency (Hz)	50/60 Hz
Voltage (V)	220-240 V	Power supply cable length	120 cm
Voltage 2 (V)	380-415 V	Terminal Box	5 poles
Type of electric cable	Three-phase	Plug	No
Type of electric cable	Single and Double phase		

Compatible Accessories

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

SCRP

Induction and ceramic hobs and teppanyaki scraper

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

Alternative products

Colour: Neptune Grey

Symbols glossary

	Automatic Boiling function: a sensor confirms once the boiling point has been reached and then an acoustic alert signals that the ingredients can be added, saving time and energy.		Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
	Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.		Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
	Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.		Melting function, suitable for slowly melting delicate foods such as chocolate or butter.
	Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.		PAUSE_72dpi
	Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).		Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.
	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.		Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.
	Time elapsed: shows how long the cooking zone has been in use.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
	TWIN_ZONE_72dpi		Permanent auto pot detection
	Possibility to set the maximum power absorption of the hob		Possibility to freely move the pot everywhere without turn off the initial settings chosen.
	7 inches TFT touch, high resolution display, true colours		Elegant silver or black glass with under glass serigraphy which allows smoothness, brilliance and no noise to the surface
