SIA1963DG

Product Family	Hob
Built-in	Ultra-low profile or Fully Flushed
Dimensions	90 cm
Power supply	Electric
Type	Induction
EAN code	8017709328016

Aesthetics

Aesthetics	Linea
Colour	Neptune Grey
Finishing	Glass
Material	Glass
Glass Type	Ceramic glass
Glass edge	Straight edge
Type of control setting	Vivo Screen Max
Slider	Yes
Slider	TFT
Control knobs position	Front
Logo	Silk screen
Serigraphy colour	Black
Alternative colours available	Black

Program / Functions

No. of induction cook zones	6
Time-setting options	Automatic switch-off
No. of cooking zones with booster	6
No. of Flexible zones	3
Main on/off switch	Yes
Power levels	17

Options

Multizone Option	Yes
Flexible Zone Type	AreaZone
Standard cut out	500-916 mm
Follow Pot	Yes
Auto-boiling Function	Yes
Simmering Function	Yes
Keep warm automatic function	Yes
Melting/Low temperature cooking function	Yes
End cooking timer	6
Pause option	Yes
Minute minder	1
End of cooking acoustic alarm	Yes
Residual time indicator	Yes
Limited Power Consumption Mode	Yes advance
Limited Power Consumption Mode in W	2400 a 11100 - step 100 W
Show Room Demo Option	Yes
Control Lock / Child Safety	Yes
Bridge option	Yes
Quick start	Yes
Rapid level selection	Yes

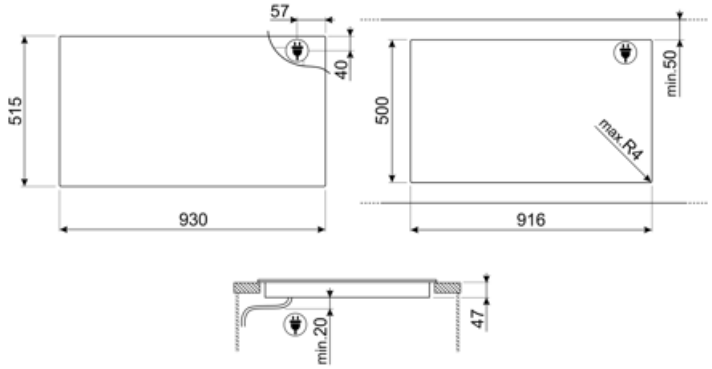

Technical Features

Central - Induction - Multizone - 2.40 kW - Booster 3.70 kW - 84.0x40.0 cm

Automatic setting according to pan dimension	Yes
Automatic pan detection	Yes, min 10 cm
Permanent Automatic Pot Detection with indication of the relative control	Yes
Automatic switch off when overheat	Yes
Automatic switch off when overflow	Yes
Residual heat indicator	Yes
Protection against accidental start up	Yes

Electrical Connection

Nominal power (W)	11100 W
Current	49 A
Voltage (V)	220-240 V
Voltage 2 (V)	380-415 V
Type of electric cable	Three-phase
Type of electric cable	Single and Double phase
Type of electric cable supplied	Yes, Single and Double phase
Frequency (Hz)	50/60 Hz
Power supply cable length	120 cm
Terminal Box	5 poles
Plug	No

Compatible Accessories

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

SCRP

Induction and ceramic hobs and teppanyaki scraper

Alternative products

SIA1963D

Colour: Black

Symbols glossary

Permanent auto pot detection

Automatic Boiling function: a sensor confirms once the boiling point has been reached and then an acoustic alert signals that the ingredients can be added, saving time and energy.

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

7 inches TFT touch, high resolution display, true colours

The slider control panel allows you to adjust the power simply by passing your finger across the touch device.

Possibility to freely move the pot everywhere without turn off the initial settings chosen.

Elegant silver or black glass with under glass serigraphy which allows smoothness, briliance and no noise to the surface

Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Melting function, suitable for slowly melting delicate foods such as chocolate or butter.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

PAUSE_72dpi

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

TWIN_ZONE_72dpi

Possibility to set the maximum power absorbion of the hob
