### **Options**

**Multizone Option** Yes Minute minder End of cooking acoustic Flexible Zone Type AreaZone alarm Standard cut out 500-916 mm Residual time indicator Auto Multizone Yes

Yes Limited Power Yes advance **Follow Pot** Yes **Consumption Mode Auto-boiling Function** Yes

Limited Power

1

Yes

2400 a 11100 - step 100

Simmering Function Yes Consumption Mode in W Keep warm automatic Yes Show Room Demo Yes function

Option Melting/Low Yes Control Lock / Child Yes temperature cooking Safety

function Bridge option Yes End cooking timer 6 Quick start Yes Pause option Yes Rapid level selection Yes

#### **Technical Features**

°C ∓ Central - Induction - Multizone - 2.40 kW - Booster 3.70 kW - 84.0x40.0 cm

Automatic setting Yes Automatic switch off Yes

according to pan when overflow dimension Residual heat indicator Yes

Automatic pan Yes, min 10 cm **Protection against** Yes detection accidental start up **Permanent Automatic** Yes Pot Detection with

Automatic switch off Yes when overheat

indication of the relative

control

#### **Electrical Connection**

Single and Double phase Nominal power (W) 11100 W Type of electric cable Current 49 A Type of electric cable Yes, Single and Double phase supplied 220-240 V Voltage (V) Frequency (Hz) 50/60 Hz 380-415 V Voltage 2 (V)

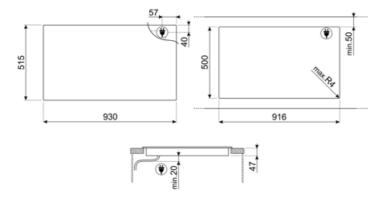

Power supply cable 120 cm Type of electric cable Three-phase length

**SMEG SPA** 15/12/2025

Terminal Box

5 poles

## **Compatible Accessories**

#### **GRILLPLATE**

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

#### **TPK**

Stainless steel grill plate to cook Teppanyaki dishes

#### **SCRP**

Induction and ceramic hobs and teppanyaki scraper

#### **TPKPLATE**

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

## Symbols glossary

has been in use.

TWIN\_ZONE\_72dpi

O	Automatic merge of zones for a bigger area	O	Permanent auto pot detection
<b>"</b>	Automatic Boiling function: a sensor confirms once the boiling point has been reached and then an acoustic alert signals that the ingredients can be added, saving time and energy.	P	Power booster: option allows the zone to work at full power when very intense cooking is necessary.
S	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.	VIVO screen MAX	7 inches TFT touch, high resolution display, true colours
19	The slider control panel allows you to adjust the power simply by passing your finger across the touch device.	್ಟ್	Possibility to freely move the pot everywhere without turn off the initial settings chosen.
GLASSY	Elegant silver or black glass with under glass serigraphy which allows smoothness, briliance and no noise to the surface	<u>"</u>	Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.
°C∓	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
亡	Melting function, suitable for slowly melting delicate foods such as chocolate or butter.		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
$\bigcirc$	PAUSE_72dpi	logic logic	Possibility to set the maximum power absorbion of the hob
† P 14 † 10 † 5	Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).	*	Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.
Н	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.	<i>""</i>	Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.
()	Time elapsed: shows how long the cooking zone	(~)	Timer: All ceramic hobs have a timer which

SMEG SPA 15/12/2025

automatically ends cooking after a preset time.
