

# **SIA1963DS**

Product Family Hob

Built-in type Ultra-low profile or Fully Flushed

Dimensions90 cmPower supplyElectricTypeInduction

EAN code 8017709304041

### **Aesthetics**

AestheticLineaColourSilverFinishingGlassMaterialGlass

Glass type 'Glassy' ceramic
Glass edge Straight edge
Type of control setting Vivo Screen Max

Slider Yes
LED colours TFT
Control knob position Front
Logo Silk screen
Serigraphy colour Grey
Alternative colours available Black

## **Program / Functions**

No. of induction cook zones

Time-setting options Spegnimento automatico

No. of cooking zones with booster 6

Main on/off switch Yes

Power levels 17

## **Options**

Yes

**Multizone Option** Yes Flexible Zone Type AreaZone Worktop Cut-Out 500-916 mm Auto Multizone Yes

**Auto-boiling Function** Yes Simmering Function Yes Keep warm automatic Yes function

Melting/Low temperature cooking function

End cooking timer 6 Pause option Yes Minute minder 1 Yes End of cooking alarm Residual time indicator Yes

**Limited Power** Si Advance **Consumption Mode** 

**Limited Power** 

2400 a 11100 - step 100

Yes

Consumption Mode in W Showroom Demo Option Yes Control Lock / Child Yes

Safety Bridge option Yes Quick start Yes Rapid level selection Yes

### **Technical Features**

Central - Induction - Multizone - 2.40 kW - Booster 3.70 kW - 84.0x40.0 cm

**Automatic** setting according to pan dimension

pan detection Yes. min. 10 cm

**Permanent Automatic** Pot Detection with indication of the relative

Automatic switch off

when overheat

Yes

Yes

control

Yes

11100 W

Automatic switch off when overflow

Residual heat indicator Yes **Protection against** Yes accidental start up

## **Electrical Connection**

**Electrical connection** 

rating (W)

Current 49 A Voltage (V) 220-240 V Voltage 2 (V) 380-415 V Yes, Three-phase

Type of electric cable installed

Additional connection

modalities

Yes, Single and Double phase

Type of electric cable supplied

Frequency (Hz) Power supply cable length

Terminal box

Plug

phase 50/60 Hz

120 cm

Yes, Single and Double

5 poles Not present

## **Compatible Accessories**

#### **GRILLPLATE**

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

### TPK

Stainless steel grill plate to cook Teppanyaki dishes

#### **SCRP**

Non-scratch hob scraper - suitable for induction and ceramic hobs

#### **TPKPLATE**

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

## Symbols glossary

Automatic Boiling function: a sensor confirms once the boiling point has been reached and then an acoustic alert signals that the ingredients can be added, saving time and energy.

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

The slider control panel allows you to adjust the power simply by passing your finger across the touch device.

This function allows you to keep cooked food warm without burner it

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Melting function, suitable for slowly melting delicate foods such as chocolate or butter.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

All cooking zones can be reduced to the minimum power level, so the hob can be left unattended for a short period without food overcooking or burning. Then just press again this function, the previously set power levels can be reactivated.

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

TWIN\_ZONE\_72dpi

Permanent auto pot detection

Possibility to set the maximum power absorbion of the hob

7 inches TFT touch, high resolution display, true colours

Automatic merge of zones for a bigger area

Elegant silver or black glass with under glass serigraphy which allows smoothness, briliance and no noise to the surface
