

SIM1844D

Product familie	Kookplaat
Type	Standaard opbouw of vlakbouw
Afmeting	80 cm
Voeding	Elektrisch
Type	Inductie
EAN-code	8017709309701

Design

Design	Linea
Kleur	Zwart
Afwerking	Glas
Materiaal	Glas
Type glas	'Glassy' ceramic
Glazen rand	Rechte rand
Bediening	Multi Slider
Slider bediening	Ja
Kleur LED	Wit
Positie bediening	Vooraan
Logo	Geëtst
Kleur serigrafie	Grijs
Andere beschikbare kleuren	Zilver

Program / Functions

Aantal inductiekookzones	4
Opties tijdprogrammering	Automatische uitschakeling
Aantal kookzones met booster	4
Aantal Multizones	1
Hoofdtoets aan/uit	Ja
Vermogenniveaus	9
Auto-Vent 2.0	Ja
Totaal aantal kookzones	4

Compatible Accessories

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

TPK

Inox teppan yaki grillplaat voor inductie

SCRP

Schraper voor inductie- en vitrokeramische kookplaten

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

Symbols glossary

	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Sommige modellen zijn voorzien van een functie om het programma/de cyclus te blokkeren zodat het niet per ongeluk kan aangepast worden.
	The slider control panel allows you to adjust the power simply by passing your finger across the touch device.		This function allows you to keep cooked food warm without burner it
	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
	Multizone: maakt het mogelijk meerdere pannen tegelijk te gebruiken, groot of klein, voor meer plaatsingsvrijheid en meer flexibiliteit		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	All cooking zones can be reduced to the minimum power level, so the hob can be left unattended for a short period without food overcooking or burning. Then just press again this function, the previously set power levels can be reactivated.		Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
	Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.		Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.
	Time elapsed: shows how long the cooking zone has been in use.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
	Permanent auto pot detection		Connection between hob and hood
	...		Min diameter pot detection of 7 cm
	Possibility to set the maximum power absorbion of the hob		Perfect fit in a 80 cm cabinet
	Additional maximum power level for a better energy consumption		Premium individual Slider control for each zone
	Automatic merge of zones for a bigger area		Elegant silver or black glass with under glass serigraphy which allows smoothness, brilliance and no noise to the surface
