Symbols glossary

O	Automatic merge of zones for a bigger area	O	Permanent auto pot detection
<u>∆</u>	Connection between hob and hood	P	Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Standard installation: Traditional installation in tabletop, suitable for any kitchen sets.	S	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
MULTI slider	Premium individual Slider control for each zone	9	The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
BOOST	Additional maximum power level for a better energy consumption	ECLIPSE	Darkness becomes light
<u></u>	Grill function	$_{\!$	This function allows you to keep cooked food warm without burner it
STOP °C∓	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
‡ 💮	Multizone: allows several pans to be used at once, large or small, offering freedom of placement and greater flexibility	⊕	Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
9cm min	Min diameter pot detection of 9 cm		All cooking zones can be reduced to the minimum power level, so the hob can be left unattended for a short period without food overcooking or burning. Then just press again this function, the previously set power levels can be reactivated.
I logic	Possibility to set the maximum power absorbion of the hob	† 14 † 14 † 10 † 5	Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
4	Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.	H	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

SMEG SPA 12/9/2025

Timer: All ceramic hobs have a timer which

automatically ends cooking after a preset time.

Time elapsed: shows how long the cooking zone

has been in use.
