Options

Flexible zone	Bridge	End-of-cooking acoustic alarm	Yes
Simmer	Yes	Residual time indicator	Yes
Automatic simmer	Yes	Child safety lock	Yes
End cooking timer	5	Twin-zone option	Yes
Pause option	Yes	Quick level selection	Yes

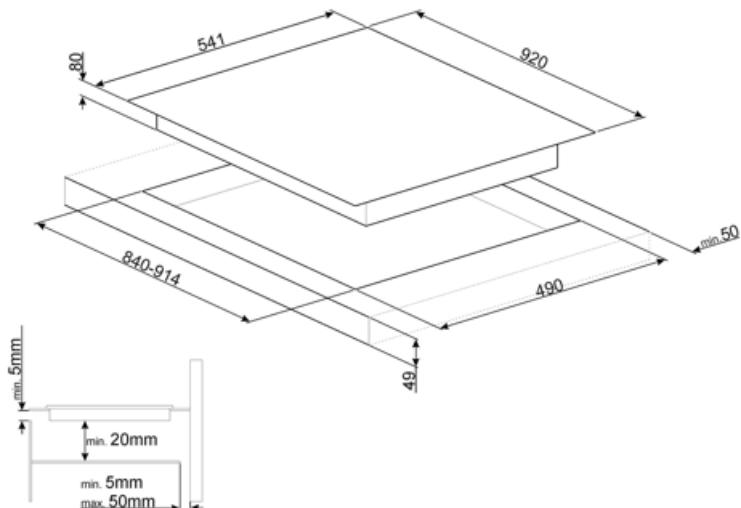

Technical Features

Front-left - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm	Automatic pan diameter adjustment	Automatic switch-off in case of overflow
Rear-left - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm	Automatic pot detection	Residual heat indicator
Center - Induction - single - 2.80 kW - Booster 5.40 kW - Ø 30.0 cm	Minimum pan diameter indication	Protection from accidental start
Rear-right - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm	Automatic switch-off in case of over-heating	
Front-right - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm		

Electrical Connection

Nominal power	11100 W	Voltage 2 (V)	120/240 V
Current	46 A	Frequency	60 Hz
Voltage	120/208 V	Plug	No

Compatible Accessories

SCRP

Induction and ceramic hobs and teppanyaki scraper

Symbols glossary

	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Ultra-low profile: Installation of product with flat edge - height of 1 mm.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
	Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.		Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
	Melting function, suitable for slowly melting delicate foods such as chocolate or butter.		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	PAUSE_72dpi		Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.		Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.
	Time elapsed: shows how long the cooking zone has been in use.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
	TWIN_ZONE_72dpi		Touch control
