Residual time indicator Yes
Child safety lock Yes
Twin-zone option Yes
Quick level selection Yes

### **Technical Features**

Front-left - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm

Rear-left - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm

Center - Induction - single - 2.80 kW - Booster 5.40 kW - Ø 30.0 cm

Rear-right - Induction - single - 1.85 kW - Booster 2.50 kW -  $\emptyset$  18.0 cm

Front-right - Induction - single - 1.85 kW - Booster 2.50 kW - Ø 18.0 cm

Automatic pan diameter Yes

adjustment

Automatic pot detection Yes
Minimum pan diameter Yes

indication.

Automatic switch-off in Yes

Automatic switch-off in Yes

case of overflow

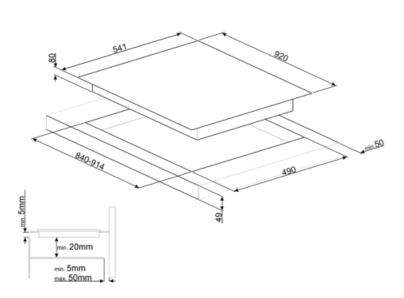

Residual heat indicator Yes
Protection from Yes

accidental start

#### **Electrical Connection**

Nominal power 11100 W
Current 46 A
Voltage 120/208 V

Voltage 2 (V) 120/240 V Frequency 60 Hz

# **Compatible Accessories**

#### **SCRP**

Induction and ceramic hobs and teppanyaki scraper

#### **TPK**

Stainless steel grill plate to cook Teppanyaki dishes

### Symbols glossary

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Ultra-low profile: Installation of product with flat edge - height of 1 mm.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

The slider control panel allows you to adjust the power simply by passing your finger across the touch device.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Melting function, suitable for slowly melting delicate foods such as chocolate or butter.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

PAUSE\_72dpi

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
