

SO4101M1B3

Category	45 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Combi Microwave
Galileo platform	Micro combi
EAN code	8017709337292

Aesthetics

Aesthetic	Linea	Serigraphy type	Symbols
Colour	Black	Door	Full glass
Finishing	Glossy	Handle	Linea minimal
Design	Flat	Handle Colour	Black
Material	Glass	Logo	Silk screen
Glass Type	Clear	Control knobs	Linea
Serigraphy colour	Grey	Controls colour	Black

Controls

Display name	CompactScreen	Control setting	Knobs
Display technology	LCD	No. of controls	2

Programme / Functions

No. of cooking functions	10
Traditional cooking functions	

Static	Fan assisted	Circulaire
Turbo	Eco	Large grill

Microwave functions

-  Microwave
-  Fan assisted
-  Circulaire
-  Microwave + grill

Other functions

-  Defrost by time

Options

Time-setting options	Delay start and automatic end cooking	Other options	Keep warm, Eco light
Minute minder	Yes	Showroom demo option	Yes
Timer	1	Rapid pre-heating	Yes
Controls Lock / Child Safety	Yes		

Technical Features

Minimum Temperature	30 °C	Door opening type	Standard opening
Maximum temperature	250 °C	Door	Temperate door
No. of shelves	2	Total no. of door glasses	3
No. of lights	1	Microwave stops when door is opened	Yes
Light type	Halogen	Chimney	Fixed
Light Power	40 W	Cooling system	Tangential
Light when door is opened	Yes	Cooling duct	Single
Lower heating element power	1000 W	Usable cavity space dimensions (HxWxD)	211x462x401 mm
Grill element - power	1750 W	Temperature control	Electronic
Circular heating element - Power	1400 W	Cavity material	Ever clean Enamel
Heating suspended when door is opened	Yes	Microwave screen protection	Yes

Performance / Energy Label

Net volume of the cavity	40 l	Microwave effective power	850 W
Number of cavities	1		

Accessories Included

<b>Rack with back stop (concave)</b>	<b>1</b>	<b>Glass tray</b>	<b>1</b>
<b>Insert gird</b>	<b>1</b>		

## Electrical Connection

<b>Voltage</b>	220-240 V	<b>Frequency (Hz)</b>	50 Hz
<b>Current</b>	14 A	<b>Power supply cable length</b>	150 cm
<b>Nominal power</b>	3100 W		

## Symbols glossary (TT)

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities, while providing maximum flexibility of household appliances.
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
	With a simple and intuitive interface, the COMPACTscreen provides a pleasant user experience, thanks to the interaction with the knobs.		Triple glazed doors: Number of glazed doors.
	Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking. The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.		Electric
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.
	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

**Microwave:** Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

**Microwave + grill element:** The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.

**Turbo:** the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.

**KEEP\_WARM\_72dpi**

**Side lights:** Two opposing side lights increase visibility inside the oven.

**The oven cavity has 2 different cooking levels.**

**Tilting grill:** the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

**Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.**

**Fan combined with traditional cooking,** where heat is generated from above and below, provides uniform heat. Adding the microwave function allows the same cooking results in less time.

**Compact appliances with a height of 45 cm -** perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.

**Illuminated controls:** are a safety device to alert the user that the appliance is on as well as being a stunning design feature.

**Rapid preheating:** cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.

**Electronic control:** Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

**The capacity indicates the amount of usable space in the oven cavity in litres.**
