

# SOA4606WM2PNR

Category	45cm compact
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Combi Microwave
Galileo Technology	Speedwave
Cleaning system	Vapour Clean
EAN code	8017709313869

## Aesthetics

Aesthetic	Dolce Stil Novo	Glass Type	Eclipse
Colour	Black	Door	Full glass
Finishing	Glossy	Handle	Dolce Stil Novo
Design	Flat	Handle Colour	Black
Component finish	Copper	Logo	Applied
Material	Glass		

## Controls

			
Display name	VivoScreen max	No. of display languages	20
Display technology	TFT	Display languages	Italiano, English (UK), Français (FR), Français (CA), Nederlands, Español (ES), Español (MX), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, Norsk, Polski, English (AU), Suomi, Ukrainian, Kazakh, Afrikaans (ZA), Zulu (ZA)
Control setting	Advanced full touch		

## Programs / Functions

No. of cooking functions	15
Automatic programmes	150
Customisable recipes	64

### Traditional cooking functions

Static	Fan assisted	Circulaire
Turbo	Eco	Large grill
Fan grill (large)	Base	Circulaire + bottom
Pizza		

### Microwave functions

Microwave	Fan assisted	Circulaire
Microwave + grill	Microwaves + Circulaire + bottom	Warming and re-generation

### Other functions

Defrost by time	Defrost by weight	Proving
Stone cooking	BBQ	Air-Fry
Keep warm	Plate rack/warmer	Sabbath

### Cleaning functions

Vapour Clean
--------------

## Options

<b>Time-setting options</b>	Delay start and automatic end cooking	<b>SameTime</b>	Yes
<b>Minute minder</b>	Yes	<b>DeltaT cooking</b>	Yes
<b>Timer</b>	3	<b>Showroom demo option</b>	Yes
<b>Controls Lock / Child Safety</b>	Yes	<b>Demo-tutorial mode</b>	Yes
<b>Other options</b>	Keep warm, Eco light, Language setting, Digital clock display, Brightness, Tones, Tones volume	<b>Touch guide</b>	Yes
<b>Cooking with probe thermometer</b>	Yes	<b>Chronology</b>	Yes, the last 10 functions utilised
<b>Multi-step cooking</b>	Yes, up to 3 steps	<b>Rapid pre-heating</b>	Yes
<b>Smart cooking</b>	Yes	<b>Instant GO</b>	Yes

## Technical Features

<b>Capacity (Lt)</b>	40 l	<b>Door opening type</b>	Standard opening
<b>Cavity</b>	QS-Galileo	<b>Door</b>	Temperate door
<b>Minimum Temperature</b>	25 °C	<b>Total no. of door glasses</b>	3
<b>Maximum temperature</b>	250 °C	<b>Microwave stops when door is opened</b>	Yes
<b>No. of shelves</b>	3	<b>Soft Close hinges</b>	Yes
<b>No. of lights</b>	2	<b>Soft Open</b>	Yes
<b>Light type</b>	LED	<b>Inverter</b>	Yes
<b>Light Power</b>	40 W	<b>Stirrer</b>	Yes
<b>Light when door is opened</b>	Yes	<b>Chimney</b>	Double
<b>Lower heating element power</b>	1000 W	<b>Cooling system</b>	Tangential
<b>Upper heating element - Power</b>	1000 W	<b>Cooling duct</b>	Single
<b>Grill element - power</b>	1700 W	<b>Usable cavity space dimensions (HxWxD)</b>	214x462x397 mm
<b>Large grill - Power</b>	2700 W	<b>Temperature control</b>	Electronic
<b>Circular heating element - Power</b>	1400 W	<b>Cavity material</b>	Ever clean Enamel
<b>Heating suspended when door is opened</b>	Yes	<b>Microwave screen protection</b>	Yes

## Performance / Energy Label

<b>Net volume of the cavity</b>	40 l	<b>Microwave effective power</b>	900 W
<b>Number of cavities</b>	1		

## Accessories Included

<b>Rack with back stop</b>	1	<b>Glass tray</b>	1
<b>Premium rack</b>	1	<b>Telescopic Guide rails, total Extraction</b>	1
<b>Insert gird</b>	1	<b>Temperature probe</b>	Yes, multipoint

## Electrical Connection

<b>Voltage</b>	220-240 V	<b>Nominal power</b>	3100 W
<b>Plug</b>	(I) Australia	<b>Frequency (Hz)</b>	50/60 Hz
<b>Current</b>	14 A	<b>Power supply cable length</b>	150 cm

## Compatible Accessories

### AIRFRY

Air fryer rack AIRFRY. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

### ET50

Enamelled tray, 50mm deep

### STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

### AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### ET20

Enamelled tray, 20mm deep

### GTT2

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

## Symbols glossary

 <p>Dedicated cooking function for the double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of g</p>	 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>
 <p>Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities, while providing maximum flexibility of household appliances.</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>Defrost by time: with this function the time of thawing of foods are determined automatically.</p>	 <p>Defrost by weight: With this function the defrosting time is determined</p>
 <p>Triple glazed doors: Number of glazed doors.</p>	 <p>Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.</p>
 <p>Electric</p>	 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>
 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>	 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>	 <p>Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.</p>
 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>
 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>	 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  <p>Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.</p> |  <p>Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.</p>                                                                                      |
|  <p>Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.</p>                                                                                                                                                                              |  <p>Fan combined with traditional cooking, where heat is generated from above and below, provides uniform heat. Adding the microwave function allows the same cooking results in less time.</p>     |
|  <p>This function can reheat precooked dishes, without becoming dry or hard.</p>                                                                                                                                                                                                                                                                                                                 |  <p>Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.</p>                                                       |
|  <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>                                           |  <p>Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.</p>       |
|  <p>KEEP_WARM_72dpi</p>                                                                                                                                                                                                                                                                                                                                                                        |  <p>Warming up: An option for dish warming and keeping the prepared meals hot.</p>                                                                                                                |
|  <p>Cooking with temperature probe: It is possible to display the temperature detected by the probe and set a target temperature that the dish must reach. When the core of the dish reaches the desired temperature, cooking stops</p>                                                                                                                                                        |  <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>                                    |
|  <p>Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.</p>                                                                                                                                                                                                                                                                         |  <p>Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works</p>                                    |
|  <p>Touch guide: By holding down any symbol for 3 seconds you can get information on its function</p>                                                                                                                                                                                                                                                                                          |  <p>The oven cavity has 3 different cooking levels.</p>                                                                                                                                           |
|  <p>Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.</p>                                                                                                                                                                                        |  <p>Appliances with Wi-Fi connectivity. Via SmegConnect App is possible to monitor and remotely control appliances through smartphone and tablet (iOS and Android).</p>                           |
|  <p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>                                                                                                                                                                                                                                       |  <p>Step cooking: It is possible to set up to 3 cooking phases in the same recipe by varying function, time and / or temperature. At the end of a phase the next one will start automatically</p> |

-  **Telescopic rails:** allow you to pull out the dish and check it without having to remove it from the oven entirely.
-  **Tilting grill:** the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.
-  **The capacity indicates the amount of usable space in the oven cavity in litres.**
-  **Wi-Fi connectivity**
-  **Keep warm:** the function allows to keep cooked food warm.
-  **Active and controlled microwave distribution.** The Microwave Stirrer fan distributes the waves evenly within the oven, reducing the need for a turntable.
-  **The perfect way to have a complete menu in a few simple steps with a considerable saving of time.** The large cavity can accommodate multiple types of food at the same time, which can be cooked without any exchange of odors. The carefully studied thermodynamic flows ensure uniform cooking at every level. The SameTime algorithm calculates the times, the cooking functions and all the parameters so that 3 foods can be ready at the same time.
-  **Dedicated cooking function for the Air fryer rack AIRFRY .** Ideal for recreating traditional frying in the oven, but with fewer calories and less fat.
-  **Electronic control:** Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.
-  **Vapour Clean:** a simple cleaning function using steam to loosen deposits in the oven cavity.
-  **The capacity indicates the amount of usable space in the oven cavity in litres.**
-  **The 6.3" VIVOscreen Max display is the most complete and advanced colour touch interface available for the automatic management of firing programmes such as Delta T, Multi-step and SameTime firing.**
-  **INSTANT GO:** activating this option allow to start cooking immediately. Preheating is included in the cooking time and the oven will gradually reach the desired temperature Particularly suitable for frozen foods.
-  **The multi-point temperature probe has three detection points.** This means that not only the core temperature is detected, but also the temperature in other areas. The oven will process all these data to avoid cooking unevenness. In this way each product can be cooked in a professional, restaurant style.
-  **The inverter technology allows to generate microwaves continuously and at the desired power.** The constant flow, without on and off cycles, allows you to precisely control the temperature, reduce times, avoids wasting energy and allows you to obtain excellent cooking, defrosting and re-heating results, thanks to the smaller difference between core and surface temperature in food.
-  **Dedicated cooking function for the rectangular refractory stone PPR2 Dimensions Ideal for cooking pizzas with the same results as a typical wood-fire**

The double chimney technology create a special airflow inside the cavity that reduce the condensation inside the cavity during microwave cooking, whe

DeltaT cooking The oven automatically sets the cavity temperature to a predefined temperature (named deltaT) higher than the core temperature detected by the probe. When the probe detects an extra degree at the core, the oven automatically increases also its internal temperature by one degree. The oven offers the possibility to choose between three different deltaT cooking modes (slow, medium and fast) and to set any desired core temperature. A concentration of technology that makes it possible to obtain tender, juicy, healthy products of the highest quality.
