

SOA6606WM2PNR

Category	60cm
Product Family	Oven
Power supply	Electric
Cooking method	Combi Microwave
Galileo Technology	SpeedwaveXL
Cleaning system	Vapour Clean
EAN code	8017709313784

Aesthetics

Aesthetic	Dolce Stil Novo	Glass Type	Eclipse
Colour	Black	Door	Full glass
Finishing	Glossy	Handle	Dolce Stil Novo
Design	Flat	Handle Colour	Black
Component finish	Copper	Logo	Applied
Material	Glass		

Controls

			
Display name	VivoScreen max	No. of display languages	20
Display technology	TFT	Display languages	Italiano, English (UK), Français (FR), Français (CA), Nederlands, Español (ES), Español (MX), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, Norsk, Polski, English (AU), Suomi, Ukrainian, Kazakh, Afrikaans (ZA), Zulu (ZA)
Control setting	Advanced full touch		

Programs / Functions

No. of cooking functions	26
Automatic programmes	150
Steam assisted levels	3 + manual

Customisable recipes

10

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Large grill
 Fan grill (large)	 Base	 Circulaire + bottom
 Pizza		

Microwave functions

 Microwave	 Fan assisted	 Circulaire
 Microwave + grill	Microwavews + Circulaire + bottom	 Warming and re-generation

Other functions

 Defrost by time	 Defrost by weight	 Proving
 Stone cooking	 BBQ	 Air-Fry
 Keep warm	 Plate rack/warmer	 Sabbath

Cleaning functions

 Vapour Clean

Options

Time-setting options	Delay start and automatic end cooking	SameTime	Yes
Minute minder	Yes	DeltaT cooking	Yes
Timer	3	Showroom demo option	Yes
Controls Lock / Child Safety	Yes	Demo-tutorial mode	Yes
Other options	Keep warm, Eco light, Language setting, Digital clock display, Brightness, Tones, Tones volume	Touch guide	Yes
Cooking with probe thermometer	Yes	Chronology	Yes, the last 10 functions utilised
Multi-step cooking	Yes, up to 3 steps	Rapid pre-heating	Yes
Smart cooking	Yes	Instant GO	Yes

Technical Features

Capacity (Lt)	72 l	Door	Cool
Minimum Temperature	25 °C	Full glass inner door	Yes
Maximum temperature	250 °C	Removable inner door	Yes
No. of shelves	5	Total no. of door glasses	4
N. of fans	1	Soft Close hinges	Yes
No. of lights	2	Soft Open	Yes
Light type	multilevel LED	Inverter	Yes
Light Power	5 W	Stirrer	Yes
Light when door is opened	Yes	Chimney	Double
Lower heating element power	1200 W	Cooling system	Centrifugal
Upper heating element - Power	1000 W	Cooling duct	Double
Grill element - power	1700 W	Speed Reduction Cooling System	Yes
Large grill - Power	2700 W	Usable cavity space dimensions (HxWxD)	353x470x397 mm
Circular heating element - Power	2000 W	Temperature control	Electronic
Heating suspended when door is opened	Yes	Cavity material	Ever clean Enamel
Door opening type	Standard opening	Tank capacity	2 l

Performance / Energy Label

Net volume of the cavity	68 l	Microwave effective power	900 W
Number of cavities	1		

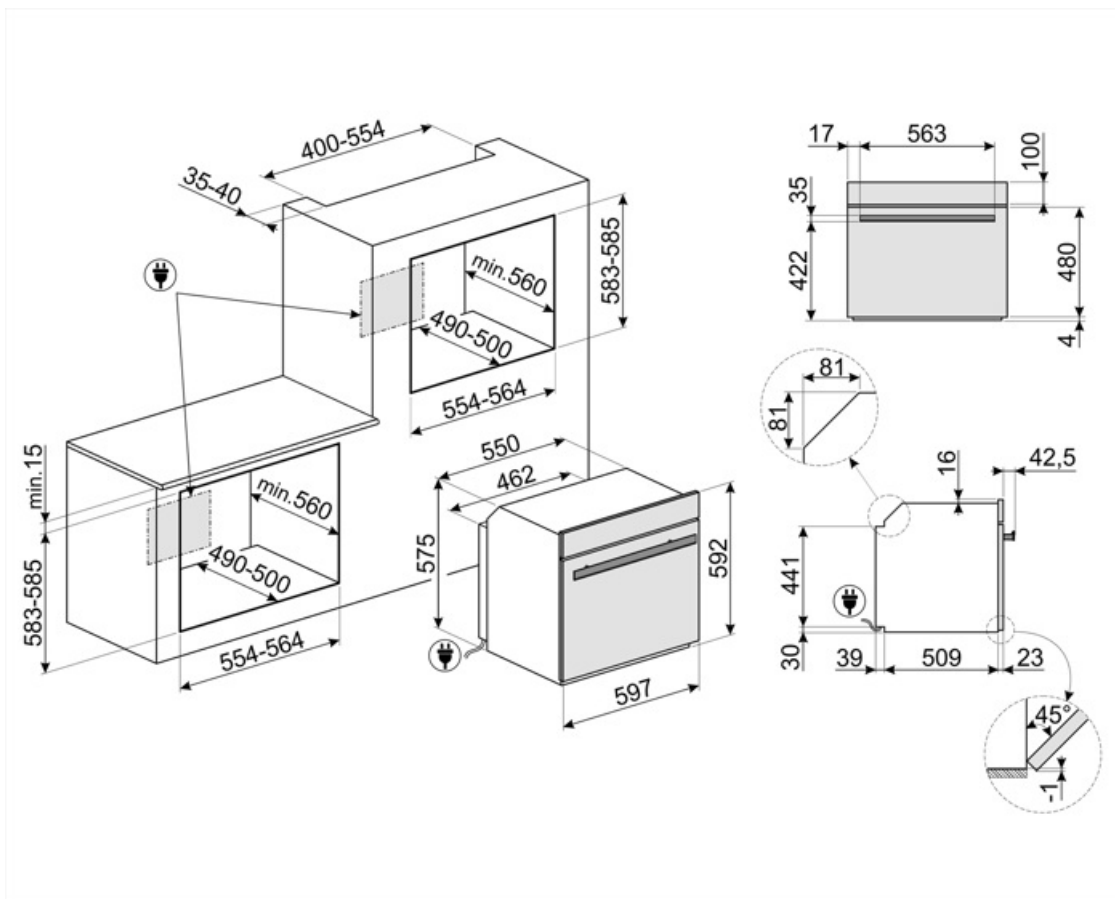

Accessories Included

Premium rack	1	Glass tray	1
Enamelled deep tray (50mm)	1	Telescopic Guide rails, total Extraction	1
Insert gird	1	Temperature probe	Yes, multipoint

Electrical Connection

Voltage	220-240 V	Nominal power	3000 W
Plug	(I) Australia	Frequency (Hz)	50/60 Hz
Current	13 A	Power supply cable length	150 cm

Compatible Accessories

AIRFRY

Air fryer rack AIRFRY. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

ET50

Enamelled tray, 50mm deep

STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

ET20

Enamelled tray, 20mm deep

GTT2

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

	Dedicated cooking function for the double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of g		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	The double chimney technology create a special airflow inside the cavity that reduce the condensation inside the cavity during microwave cooking, whe		Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities,while providing maximum flexibility of household appliances.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Defrost by weight: With this function the defrosting time is determined
	Quadruple glazed: Number of glazed doors.		Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.
	Electric		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.		Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
	Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.		Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.		Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.

 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>	 <p>Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.</p>
 <p>Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.</p>	 <p>Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.</p>
 <p>Fan combined with traditional cooking, where heat is generated from above and below, provides uniform heat. Adding the microwave function allows the same cooking results in less time.</p>	 <p>This function can reheat precooked dishes, without becoming dry or hard.</p>
 <p>Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.</p>	 <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>
 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>	 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>
 <p>KEEP_WARM_72dpi</p>	 <p>Warming up: An option for dish warming and keeping the prepared meals hot.</p>
 <p>Cooking with temperature probe: It is possible to display the temperature detected by the probe and set a target temperature that the dish must reach. When the core of the dish reaches the desired temperature, cooking stops</p>	 <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>
 <p>Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.</p>	 <p>Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works</p>
 <p>Touch guide: By holding down any symbol for 3 seconds you can get information on its function</p>	 <p>The oven cavity has 5 different cooking levels.</p>
 <p>Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.</p>	 <p>Appliances with Wi-Fi connectivity. Via SmegConnect App is possible to monitor and remotely control appliances through smartphone and tablet (iOS and Android).</p>

 <p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>	 <p>Step cooking: It is possible to set up to 3 cooking phases in the same recipe by varying function, time and / or temperature. At the end of a phase the next one will start automatically</p>
 <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>	 <p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p>
 <p>Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.</p>	 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>
 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>	 <p>Wi-Fi connectivity</p>
 <p>The 6.3" VIVOscreen Max display is the most complete and advanced colour touch interface available for the automatic management of firing programmes such as Delta T, Multi-step and SameTime firing.</p>	 <p>Keep warm: the function allows to keep cooked food warm.</p>
 <p>INSTANT GO: activating this option allow to start cooking immediately. Preheating is included in the cooking time and the oven will gradually reach the desired temperature Particularly suitable for frozen foods.</p>	 <p>Active and controlled microwave distribution. The Microwave Stirrer fan distributes the waves evenly within the oven, reducing the need for a turntable.</p>
 <p>The multi-point temperature probe has three detection points. This means that not only the core temperature is detected, but also the temperature in other areas. The oven will process all these data to avoid cooking unevenness. In this way each product can be cooked in a professional, restaurant style.</p>	 <p>The latest generation of LED lights, positioned over the entire height of the cavity, guarantee perfect multi-level visibility. No matter how many trays you put in the oven, the food inside will always be clearly visible and you can check the progress of the cooking process. In addition to the guaranteed efficiency, the LED lights also have a modern look and low energy consumption, saving up to 80% of costs and lasting 25 times longer than traditional halogen bulbs.</p>
 <p>The perfect way to have a complete menu in a few simple steps with a considerable saving of time. The large cavity can accommodate multiple types of food at the same time, which can be cooked without any exchange of odors. The carefully studied thermodynamic flows ensure uniform cooking at every level. The SameTime algorithm calculates the times, the cooking functions and all the parameters so that 3 foods can be ready at the same time.</p>	 <p>The inverter technology allows to generate microwaves continuously and at the desired power. The constant flow, without on and off cycles, allows you to precisely control the temperature, reduce times, avoids wasting energy and allows you to obtain excellent cooking, defrosting and re-heating results, thanks to the smaller difference between core and surface temperature in food.</p>
 <p>Dedicated cooking function for the Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat.</p>	 <p>Dedicated cooking function for the rectangular refractory stone PPR2 Dimensions Ideal for cooking pizzas with the same results as a typical wood-fire</p>

DeltaT cooking The oven automatically sets the cavity temperature to a predefined temperature (named deltaT) higher than the core temperature detected by the probe. When the probe detects an extra degree at the core, the oven automatically increases also its internal temperature by one degree. The oven offers the possibility to choose between three different deltaT cooking modes (slow, medium and fast) and to set any desired core temperature. A concentration of technology that makes it possible to obtain tender, juicy, healthy products of the highest quality.
