SOP6201S2S

Category	60 cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Combi Steam
Galileo platform	Pyro steam
Cleaning system	Pyrolitic
EAN code	8017709363703

Aesthetics

Aesthetic	Musa	**Serigraphy type**	Symbols
Colour	Silver	**Door**	Full glass
Finishing	Glossy	**Handle**	Musa
Design	Flat	**Handle Colour**	Black
Material	Glass	**Logo**	Silk screen
Glass Type	Eclipse	**Control knobs**	Musa
Serigraphy colour	Grey	**Controls colour**	Black

Controls

Display name	CompactScreen	**Control setting**	Knobs
Display technology	LCD	**No. of controls**	2

Programs / Functions main oven

No. of cooking functions	11

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Turbo
- Eco
- Large grill
- Fan grill (large)
- Base
- Circulaire + bottom
- Pizza

Cooking functions with steam

- Circulaire

Other Steam functions

- Water outlet
- Descaling

Other functions

- Defrost by time
- Leavening
- Sabbath

Cleaning functions

- Pirolysis

Options

Time-setting options	Delay start and automatic end cooking	**Other options**	Keep warm
Minute minder	Yes	**Showroom demo option**	Yes
Timer	1	**Rapid pre-heating**	Yes
Controls Lock / Child Safety	Yes		

Technical Features

Capacity (Lt)	68 l	**Removable door**	Yes
Cavity	QS-Galileo	**Full glass inner door**	Yes
Minimum Temperature	30 °C	**Removable inner door**	Yes
Maximum temperature	280 °C	**Total no. of door glasses**	4
No. of shelves	5	**Soft Close hinges**	Yes
N. of fans	1	**Chimney**	Fixed
No. of lights	1	**Cooling system**	Tangential
Light type	Halogen	**Cooling duct**	Double
User-replaceable light	Yes	**Speed Reduction Cooling System**	Yes
Light Power	40 W		

Light when door is opened	Yes
Lower heating element power	1200 W
Grill element - power	1750 W
Circular heating element - Power	2000 W
Heating suspended when door is opened	Yes
Door opening type	Standard opening
Door	Cool
Door Lock During Pyrolisis	Yes
Steam range	20 - 40%
Usable cavity space dimensions (HxWxD)	353x470x401 mm
Temperature control	Electronic
Cavity material	Ever clean Enamel
Water loading	Drawer, manual
Tank capacity	0,8 l

Performance / Energy Label

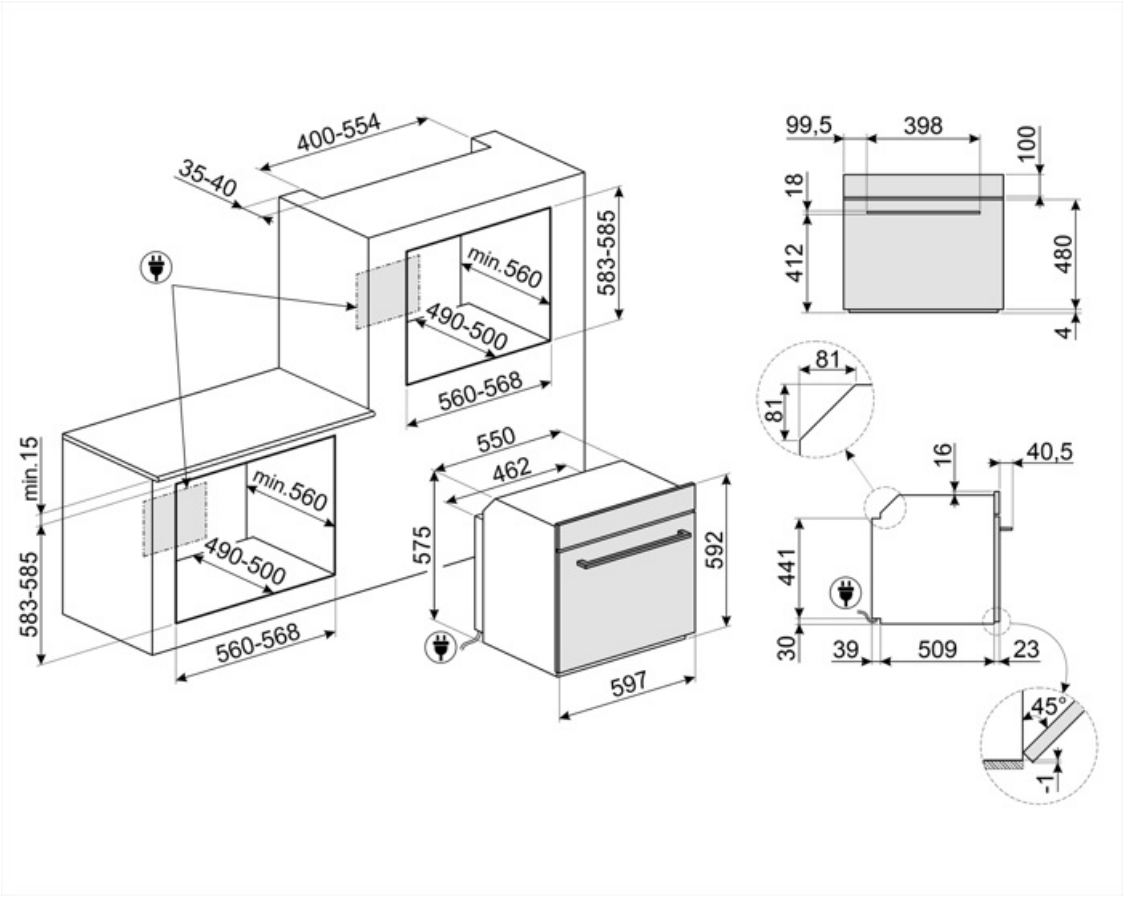

Energy efficiency class	A+
Net volume of the cavity	68 l
Energy consumption per cycle in conventional mode	1,09 kWh
Energy consumption in conventional mode	3,92 MJ
Energy consumption in forced air convection	2,45 MJ
Energy consumption per cycle in fan-forced convection	0,68 kWh
Number of cavities	1
Energy efficiency index	81 %

Accessories included

Rack with back stop	1
Enamelled deep tray (50mm)	1
Other	water loading kit

Electrical Connection

Voltage	220-240 V
Plug	(F;E) Schuko
Current	13 A
Nominal power	3000 W
Frequency (Hz)	50/60 Hz
Power supply cable length	150 cm

Compatible Accessories

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

ET50

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 50 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

ET20

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

GTTV2

Totally extractable telescopic guides (1 level), suitable for steam ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

Manual water loading system: It is possible to load the tank in less than 40 seconds. The loading is done manually thanks to a special funnel included.

A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

Air cooling system: to ensure a safe surface temperatures.

Descaling function: Is essential to remove excess deposits of limestone in the tank and allow the proper operation of the product. The need to perform this operation is signaled by the product itself.

Quadruple glazed: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Combi steam ovens: The steam cooking system allows to cook any type of food more gently and quickly. Variations in temperature and steam level allow you to achieve the desired gastronomic result. Steam cooking decrease the use of fat in favor of a healthier and more genuine cuisine, and also minimizes the loss of weight and volume of food during cooking. Steam cooking is perfect for cooking meats: in addition to making them very soft, it maintains their shine and makes them more succulent. Also recommended for cooking leavened doughs and bread-making: humidity in fact allows the dough to grow and develop during cooking before creating the external crust. The result is a lighter and more digestible dough, recognizable by the larger alveolation. It is also suitable for defrosting quickly, for heating foods without hardening or drying them and for naturally desalting salted foods.

Defrost by time: Manual defrost function. At the end of the set duration, the function stops.

With a simple and intuitive interface, the COMPACTscreen provides a pleasant user experience, thanks to the interaction with the knobs.

Electric

Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.

FUN_STEAM_OTHER_WATER_IN_OUT_72dpi

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

KEEP WARM

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Circulaire + Steam: The addition of steam to thermoventilated cooking allows better preservation of the organoleptic properties of food. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is the perfect function for cooking all types of dishes in a more delicate way. It is also ideal for cooking on multiple levels without mixing smells and flavors. Ideal for preparing roasts, chicken and baked goods such as leavened cakes and bread.

Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.

Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.

The oven cavity has 5 different cooking levels.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

SABBATH: function that allows to cook food respecting Judaism's day of rest provisions.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

The capacity indicates the amount of usable space in the oven cavity in litres.
