

SOPA3104TPG

Category	76cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermoseal
Cleaning system	Pyrolitic
EAN code	8017709325671

Aesthetics

Aesthetic	Linea	Serigraphy colour	Black
Colour	Neptune Grey	Serigraphy type	Symbols
Finishing	Matte	Door	Full glass
Design	Flat	Handle	Linea minimal
Material	Glass	Handle Colour	Satin metal and black
Glass Type	Clear	Logo	Silk screen

Controls

			
Display name	VivoScreen	No. of display languages	11
Display technology	TFT	Display languages	Italiano, English (UK), Français (FR), Nederlands, Español (ES), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, Polski
Control setting	Advanced full touch		

Programs / Functions

No. of cooking functions	10
Automatic programmes	50
Customisable recipes	64

Traditional cooking functions

Static	Fan assisted	Circulaire
Turbo	Eco	Large grill
Fan grill (large)	Base	Circulaire + bottom
Pizza		

Other functions

Defrost by time	Defrost by weight	Proving
Keep warm	Plate rack/warmer	Sabbath

Cleaning functions

Pirolysis

Options

Time-setting options	Delay start and automatic end cooking	DeltaT cooking	Yes
Minute minder	Yes	Showroom demo option	Yes
Timer	2	Demo-tutorial mode	Yes
Other options	Keep warm, Eco light, Language setting, Digital clock display, Brightness, Tones, Tones volume	Touch guide	Yes
Cooking with probe thermometer	Yes	Chronology	Yes, the last 10 functions utilised
Multi-step cooking	Yes, up to 2 steps	Rapid pre-heating	Yes
Smart cooking	Yes	Instant GO	Yes
SameTime	Yes		

Technical Features

Capacity (Lt)	77 l	Heating suspended when door is opened	Yes
Minimum Temperature	25 °C	Door opening type	Standard opening
Maximum temperature	280 °C	Door	Cool
No. of shelves	5	Removable door	Yes
N. of fans	1	Full glass inner door	Yes
No. of lights	2	Removable inner door	Yes
Light type	Halogen		

User-replaceable light	Yes	Total no. of door glasses	4
Light Power	40 W	Soft Close hinges	Yes
Light when door is opened	Yes	Soft Open	Yes
Lower heating element power	1700 W	Cooling system	Tangential
Upper heating element - Power	1200 W	Cooling duct	Double
Grill element - power	1700 W	Speed Reduction Cooling System	Yes
Large grill - Power	2900 W	Usable cavity space dimensions (HxWxD)	439x621x429 mm
Circular heating element - Power	2000 W	Temperature control	Electro-mechanical
		Cavity material	Ever clean Enamel

Performance / Energy Label

Net volume of the cavity 77 l

Number of cavities 1

Accessories Included

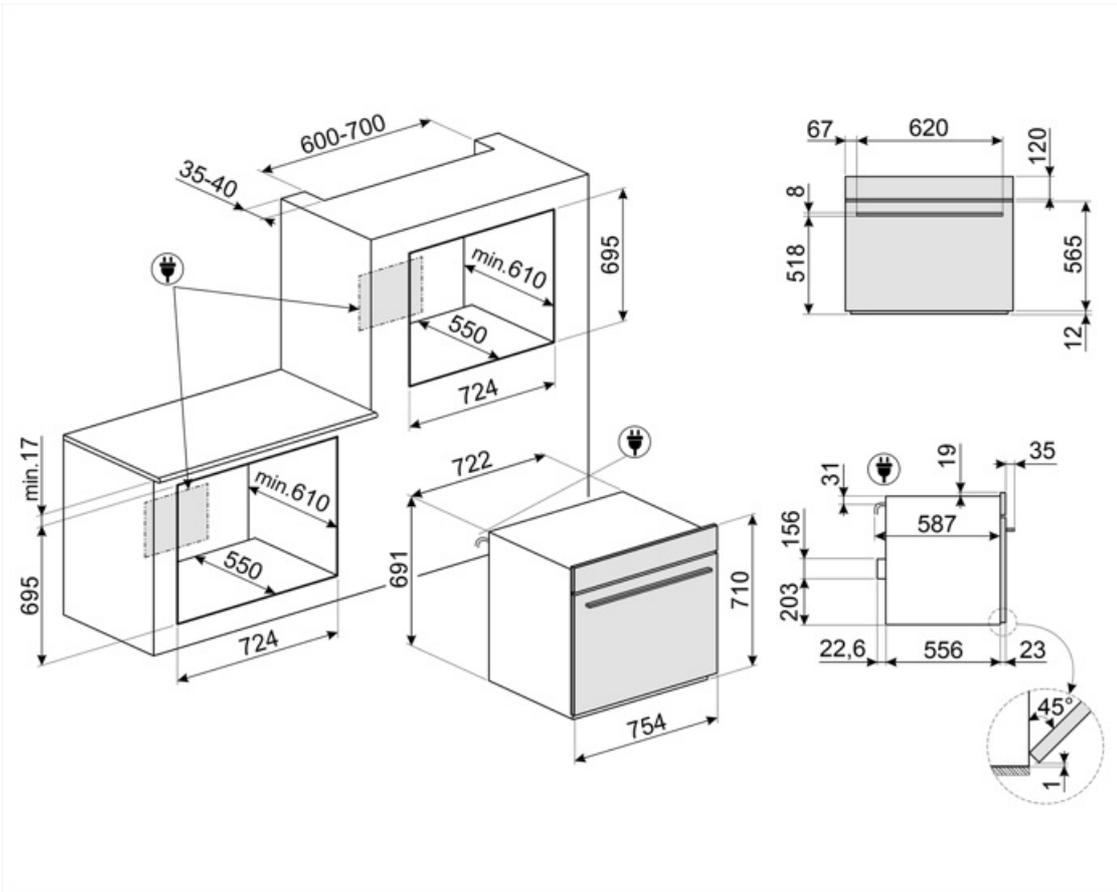

Rack with back stop 2
Enamelled deep tray (40mm) 1

Telescopic Guide rails, total Extraction 1
Temperature probe Yes, multipoint

Electrical Connection

Voltage 220-240 V
Plug No
Current 18 A

Nominal power 4000 W
Frequency (Hz) 50/60 Hz
Power supply cable length 150 cm

Compatible Accessories

AIRFRY

Air fryer rack AIRFRY. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

Symbols glossary

Air cooling system: to ensure a safe surface temperatures.

Defrost by weight: With this function the defrosting time is determined

The 4.3" VIVOscreen display offers an advanced colour touch interface, for automatic management of firing programmes such as Delta T, Multi-step and SameTime firing.

Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.

Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.

Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.

Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

Defrost by time: with this function the time of thawing of foods are determined automatically.

DeltaT cooking The oven automatically sets the cavity temperature to a predefined temperature (named deltaT) higher than the core temperature detected by the probe. When the probe detects an extra degree at the core, the oven automatically increases also its internal temperature by one degree. The oven offers the possibility to choose between three different deltaT cooking modes (slow, medium and fast) and to set any desired core temperature. A concentration of technology that makes it possible to obtain tender, juicy, healthy products of the highest quality.

Quadruple glazed: Number of glazed doors.

Electric

Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.

Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.

- | | |
|--|--|
|  <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p> |  <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p> |
|  <p>Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.</p> |  <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p> |
|  <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p> |  <p>The inner door glass: can be removed with a few quick movements for cleaning.</p> |
|  <p>KEEP_WARM_72dpi</p> |  <p>Side lights: Two opposing side lights increase visibility inside the oven.</p> |
|  <p>Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.</p> |  <p>Warming up: An option for dish warming and keeping the prepared meals hot.</p> |
|  <p>Cooking with temperature probe: It is possible to display the temperature detected by the probe and set a target temperature that the dish must reach. When the core of the dish reaches the desired temperature, cooking stops</p> |  <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p> |
|  <p>Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.</p> |  <p>Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works</p> |
|  <p>Touch guide: By holding down any symbol for 3 seconds you can get information on its function</p> |  <p>5 The oven cavity has 5 different cooking levels.</p> |
|  <p>Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.</p> |  <p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p> |
|  <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p> |  <p>77lt The capacity indicates the amount of usable space in the oven cavity in litres.</p> |
|  <p>90lt The capacity indicates the amount of usable space in the oven cavity in litres.</p> |  <p>Keep warm: the function allows to keep cooked food warm.</p> |

INSTANT GO: activating this option allow to start cooking immediately. Preheating is included in the cooking time and the oven will gradually reach the desired temperature Particularly suitable for frozen foods.

The multi-point temperature probe has three detection points. This means that not only the core temperature is detected, but also the temperature in other areas. The oven will process all these data to avoid cooking unevenness. In this way each product can be cooked in a professional, restaurant style.

The perfect way to have a complete menu in a few simple steps with a considerable saving of time. The large cavity can accommodate multiple types of food at the same time, which can be cooked without any exchange of odors. The carefully studied thermodynamic flows ensure uniform cooking at every level. The SameTime algorithm calculates the times, the cooking functions and all the parameters so that 3 foods can be ready at the same time.
