SOPU3302TPX

Category	30"
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Pyrolitic
EAN code	8017709313418

Aesthetics

Aesthetic	Classica	**Serigraphy type**	Symbols
Colour	Stainless steel	**Door**	With 2 horizontal strips
Finishing	Fingerproof	**Handle**	Classic
Design	Flat	**Handle Colour**	Steel effect
Material	Stainless steel	**Logo**	Embossed
Type of steel	Brushed	**Control knobs**	Classic
Glass Type	Eclipse	**Controls colour**	Steel effect
Serigraphy colour	Black		

Controls

Display name	EvoScreen	**Control setting**	Knobs
Display technology	LCD	**No. of controls**	2

Programs / Functions

No. of cooking functions	9

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Turbo
- Large grill
- Fan grill (large)
- Base
- Circulaire + bottom
- Pizza

Other functions

- Defrost by time
- Leavening
- Sabbath

Cleaning functions

- Pirolysis

Sabbath Mode	Yes

Options

Time-setting options	Delay start and automatic end cooking	**Cooking with probe thermometer**	Yes
Minute minder	Yes	**Showroom demo option**	Yes
Timer	2	**Rapid pre-heating**	Yes
Other options	Keep warm, Eco light, Tones		

Technical Features

Capacity (Lt)	111 l	**Circular heating element - Power**	2000 W
Minimum Temperature	122 °F	**Heating suspended when door is opened**	Yes
Maximum temperature	280 °F	**Door opening type**	Standard opening
No. of shelves	6	**Door**	Cool
N. of fans	1	**Removable door**	Yes
No. of lights	2	**Full glass inner door**	Yes
Light type	Halogen	**Total no. of door glasses**	4
User-replaceable light	Yes	**Cooling system**	Tangential
Light Power	40 W	**Cooling duct**	Double
Light when door is opened	Yes	**Speed Reduction Cooling System**	Yes
Lower heating element power	1700 W	**Door Lock During Pyrolisis**	Yes
Upper heating element - Power	1200 W	**Usable cavity space dimensions (HxWxD)**	442x585x437 mm
Grill element - power	1700 W	**Temperature control**	Electronic
Large grill - Power	2900 W		

Cavity material	Ever clean Enamel

Performance / Energy Label

Energy efficiency class	A	**Energy consumption in forced air convection**	3,06 MJ
Net volume of the cavity	3.92 cu. ft.	**Energy consumption per cycle in fan-forced convection**	0,85 kWh
Energy consumption per cycle in conventional mode	1,00 kWh	**Number of cavities**	1
Energy consumption in conventional mode	3,60 MJ	**Energy efficiency index**	83,3 %

Accessories Included

Rack with back stop	2	**Temperature probe**	Yes, single point
Telescopic Guide rails, total Extraction	1		

Electrical Connection

Voltage	120/240 V	**Current 2**	20 A
Plug	No	**Frequency (Hz)**	60 Hz
Nominal power	5900 W	**Power supply cable length**	45 1/4 "
Voltage 2	120/208 V		

Symbols glossary

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Air cooling system: to ensure a safe surface temperatures.

Quadruple glazed: Number of glazed doors.

Electric

Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

A: Product drying performance, measured from A+++ to D / G depending on the product family

Defrost by time: Manual defrost function. At the end of the set duration, the function stops.

Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.

Turbo: the heat comes from 3 directions: above, below and from the back of the oven The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

KEEP_WARM_72dpi

Side lights: Two opposing side lights increase visibility inside the oven.

PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.

Temperature probe: with the temperature probe it is possible to perfectly cooking roasts, loins, meat of various cuts and sizes. In fact, the probe improve food cooking, thanks to the precise control of the temperature at the heart of the dish. The core temperature of the food is measured by a special sensor located inside the tip. When the instant temperature reaches the target temperature set by the user, cooking is finished

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.

SABBATH: function that allows to cook food respecting Judaism's day of rest provisions.

The oven cavity has 6 different cooking levels.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.

The new EVOscreen display is enhanced with new, optimised colour graphics: 5 touch buttons control functions and parameters in an extremely simple way.
